CareSource Advantage Comprehensive Formulary UPDATE - 9/18/2009

Affected Drug Brand Name	Affected Drug Strength	Offset Brand Name	Alternative Tier	Effective Date	Action
Colchicine	0.5 mg	Allopurinol	tier 1	10/1/2009	This drug is not covered under the Medicare Part D program and will be taken off the formulary
Casodex	50 mg	Bicalutamide	tier 1	12/1/2009	The brand drug will be taken off the formulary since an equal generic drug is available in tier 1
Golytely	N/A	Gavilyte-G	tier 1	12/1/2009	The brand drug will be taken off the formulary since an equal generic drug is available in tier 1

CareSource Advantage Comprehensive Formulary UPDATE - 8/11/2009

Affected Drug Brand Name	Affected Drug Strength	Offset Brand Name	Alternative Tier	Effective Date	Action
Cytomel	5 mcg, 25 mcg, 50 mcg	Liothyronine	tier 1	11/1/2009	The brand drug will be taken off the formulary since an equal generic drug is available in tier 1
Urso Forte	500 mg	Ursodiol	tier 1	11/1/2009	The brand drug will be taken off the formulary since an equal generic drug is available in tier 1

CareSource Advantage Comprehensive Formulary UPDATE - 8/1/2009

Affected Drug Brand Name	Affected Drug Strength	Offset Brand Name	Alternative Tier	Effective Date	Action
Colestid Pack	5 gm	Colestipol	tier 1	10/1/2009	The brand drug will be taken off the formulary since an equal generic drug is available in tier 1
Topamax Tablet	25 mg, 50 mg, 100 mg, 200 mg	Topiramate	tier 1	10/1/2009	The brand drug will be taken off the formulary since an equal generic drug is available in tier 1
Topamax Sprinkles	15 mg, 25 mg	Topiramate	tier 1	10/1/2009	The brand drug will be taken off the formulary since an equal generic drug is available in tier 1
Risperdal M-Tab	0.5 mg, 2 mg	Risperidone	tier 1	10/1/2009	The brand drug will be taken off the formulary since an equal generic drug is available in tier 1
Tegretol XR Tablet	200 mg, 400 mg	Carbamazepine	tier 1	10/1/2009	The brand drug will be taken off the formulary since an equal generic drug is available in tier 1
Zerit Solution	1 mg/mL	Stavudine	tier 1	10/1/2009	The brand drug will be taken off the formulary since an equal generic drug is available in tier 1

**CareSource Advantage
2009 Formulary**

(List of Covered Drugs)

**PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION ABOUT THE
DRUGS WE COVER IN THIS PLAN**

Updated Nov. 1, 2009

Note to existing members: This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

What is the CareSource Advantage Formulary?

A formulary is a list of covered drugs selected by CareSource Advantage in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. CareSource Advantage will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a CareSource Advantage network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your Evidence of Coverage.

Can the Formulary change?

Generally, if you are taking a drug on our 2009 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2009 coverage year except when a new, less expensive generic drug becomes available or when new adverse information about the safety or effectiveness of a drug is released. Other types of formulary changes, such as removing a drug from our formulary, will not affect members who are currently taking the drug. It will remain available at the same cost-sharing for those members taking it for the remainder of the coverage year. We feel it is important that you have continued access for the remainder of the coverage year to the formulary drugs that were available when you chose our plan, except for cases in which you can save additional money or we can ensure your safety.

If we remove drugs from our formulary, or add prior authorization, quantity limits and/or step therapy restrictions on a drug or move a drug to a higher cost-sharing tier, we must notify affected members of the change at least 60 days before the change becomes effective, or at the time the member requests a refill of the drug, at which time the member will receive a 60-day supply of the drug. If the Food and Drug Administration deems a drug on our formulary to be unsafe or the drug's manufacturer removes the drug from the market, we will immediately remove the drug from our formulary and provide notice to members who take the drug. The enclosed formulary is current as of October 8, 2008. To get updated information about the drugs covered by CareSource Advantage, please visit our Web site at www.caresourceadvantage.com or call Member Services at 1-877-725-4581, Monday – Friday, 8 a.m. to 8 p.m. TTY users should call 1-800-649-3777 or 711.

How do I use the Formulary?

There are two ways to find your drug within the formulary:

Medical Condition

The formulary begins on page 8. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, Cardiac Drugs. If you know what your drug is used for, look for the category name in the list that begins 8. Then look under the category name for your drug.

Alphabetical Listing

If you are not sure what category to look under, you should look for your drug in the Index that begins on page 76. The Index provides an alphabetical list of all of the drugs included in this document. Both brand name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

What are generic drugs?

CareSource Advantage covers both brand name drugs and generic drugs.

A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. Generally, generic drugs cost less than brand name drugs.

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** CareSource Advantage requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval from CareSource Advantage before you fill your prescriptions. If you don't get approval, CareSource Advantage may not cover the drug.
- **Quantity Limits:** For certain drugs, CareSource Advantage limits the amount of the drug that CareSource Advantage will cover. For example, CareSource Advantage provides 4 doses per 30 days per prescription for Imitrex. This may be in addition to a standard one month or three month supply.
- **Step Therapy:** In some cases, CareSource Advantage requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both

treat your medical condition, CareSource Advantage may not cover drug B unless you try Drug A first. If Drug A does not work for you, CareSource Advantage will then cover Drug B.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 8.

You can ask CareSource Advantage to make an exception to these restrictions or limits. See the section, "How do I request an exception to the CareSource Advantage's formulary?" on page 4 for information about how to request an exception.

What if my drug is not on the Formulary?

If your drug is not included in this formulary, you should first contact Member Services and confirm that your drug is not covered. If you learn that CareSource Advantage does not cover your drug, you have two options:

- You can ask Member Services for a list of similar drugs that are covered by CareSource Advantage. When you receive the list, show it to your doctor and ask him or her to prescribe a similar drug that is covered by CareSource Advantage.
- You can ask CareSource Advantage to make an exception and cover your drug. See below for information about how to request an exception.

How do I request an exception to the CareSource Advantage Formulary?

You can ask CareSource Advantage to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover your drug even if it is not on our formulary.
- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, CareSource Advantage limit the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover more.
- You can ask us to provide a higher level of coverage for your drug. If your drug is contained in our non-preferred/highest tier subject to the tiering exceptions process tier, you can ask us to cover it at the cost-sharing amount that applies to drugs in the preferred/lowest tier subject to the tiering exceptions process tier instead. This would lower the amount you must pay for your drug. Please note, if we grant your

request to cover a drug that is not on our formulary, you may not ask us to provide a higher level of coverage for the drug.

Generally, CareSource Advantage will only approve your request for an exception if the alternative drugs included on the plan's formulary, the lower-tiered drug or additional utilization restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

You should contact us to ask us for an initial coverage decision for a formulary, tiering or utilization restriction exception. **When you are requesting a formulary, tiering or utilization restriction exception you should submit a statement from your physician supporting your request.** Generally, we must make our decision within 72 hours of getting your prescribing physician's supporting statement. You can request an expedited (fast) exception if you or your doctor believe that your health could be seriously harmed by waiting up to 72 hours for a decision. If your request to expedite is granted, we must give you a decision no later than 24 hours after we get your prescribing physician's supporting statement.

What do I do before I can talk to my doctor about changing my drugs or requesting an exception?

As a new or continuing member in our plan you may be taking drugs that are not on our formulary. Or, you may be taking a drug that is on our formulary but your ability to get it is limited. For example, you may need a prior authorization from us before you can fill your prescription. You should talk to your doctor to decide if you should switch to an appropriate drug that we cover or request a formulary exception so that we will cover the drug you take. While you talk to your doctor to determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your drugs that is not on our formulary or if your ability to get your drugs is limited, we will cover a temporary 31-day supply (unless you have a prescription written for fewer days) when you go to a network pharmacy. After your first 31-day supply, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.

If you are a resident of a long-term care facility, we will cover a temporary 31-day transition supply (unless you have a prescription written for fewer days). We will cover more than one refill of these drugs for the first 90 days you are a member of our plan. If you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a 31-day emergency supply of that drug (unless you have a prescription for fewer days) while you pursue a formulary exception.

New members in our Plan may be taking drugs that aren't on our formulary or that are subject to certain restrictions, such as prior authorization or step therapy. Current members may also be affected by changes in our formulary from one year to the next. Members should talk to their doctors to decide if they should switch to a different drug that we cover or request a formulary exception in order to get coverage for the drug. Please contact Member Services if your drug is not on our formulary, is subject to certain restrictions, such as prior authorization or step therapy, or will no longer be on our formulary next year and you need help switching to a different drug that we cover or requesting a formulary exception.

During the period of time members are talking to their doctors to determine the right course of action, we may provide a temporary supply of the non-formulary drug if those members need a refill for the drug during the first 90 days of new membership in our Plan. If you are a current member affected by a formulary change from one year to the next, we will provide you with the opportunity to request a formulary exception in advance for the following year.

When a member goes to a network pharmacy and we provide a temporary supply of a drug that isn't on our formulary, or that has coverage restrictions or limits (but is otherwise considered a "Part D drug"), we will cover a 31-day supply (unless the prescription is written for fewer days). After we cover the temporary 31-day supply, we generally will not pay for these drugs as part of our transition policy again. We will provide you with a written notice after we cover your temporary supply. This notice will explain the steps you can take to request an exception and how to work with your doctor to decide if you should switch to an appropriate drug that we cover.

If a new member is a resident of a long-term-care facility (like a nursing home), we will cover a temporary 31-day transition supply (unless the prescription is written for fewer days). If necessary, we will cover more than one refill of these drugs during the first 90 days a new member is enrolled in our Plan. If the resident has been enrolled in our Plan for more than 90 days and needs a drug that isn't on our formulary or is subject to other restrictions, such as step therapy or dosage limits, we will cover a temporary 31-day emergency supply of that drug (unless the prescription is for fewer days) while the new member pursues a formulary exception.

Please note that our transition policy applies only to those drugs that are "Part D drugs" and bought at a network pharmacy. The transition policy can't be used to buy a non-Part D drug or a drug out of network, unless you qualify for out of network access.

For more information

For more detailed information about your CareSource Advantage prescription drug coverage, please review your Evidence of Coverage and other plan materials.

If you have questions about CareSource Advantage, please call Member Services at 1-877-725-4581, Monday – Friday, 8 a.m. to 8 p.m. TTY users should call 1-800-649-3777 or 711. Or visit www.caresourceadvantage.com.

If you have general questions about Medicare prescription drug coverage, please call Medicare at 1-800-MEDICARE (1-800-633-4227) 24 hours a day/7 days a week. TTY/TDD users should call 1-877-486-2048. Or, visit www.medicare.gov.

CareSource Advantage’s Formulary

The formulary that begins on the next page provides coverage information about some of the drugs covered by CareSource Advantage. If you have trouble finding your drug in the list, turn to the Index that begins on page 76.

The first column of the chart lists the drug name. Brand name drugs are capitalized (e.g., COUMADIN) and generic drugs are listed in lower-case italics (e.g., *warfarin sodium*). The information in the Notes column tells you if CareSource Advantage has any special requirements for coverage of your drug.

2009 MEDICARE FORMULARY - OPEN

Comprehensive Formulary Symbols

The symbol [PA] in the Restrictions column indicates that prior authorization may apply.

The symbol [QL] in the Restrictions column indicates that quantities dispensed may be limited.

The symbol [STC] in the Restrictions column indicates that step therapy may apply.
