Medical	Administrative	Pharmacy	REIMBURSEMENT		

Reimbursement Policies prepared by CSMG Co. and its affiliates (including CareSource) are intended to provide a general reference regarding billing, coding and documentation guidelines. Coding methodology, regulatory requirements, industry-standard claims editing logic, benefits design and other factors are considered in developing Reimbursement Policies.

In addition to this Policy, Reimbursement of services is subject to member benefits and eligibility on the date of service, medical necessity, adherence to plan policies and procedures, claims editing logic, provider contractual agreement, and applicable referral, authorization, notification and utilization management guidelines. Medically necessary services include, but are not limited to, those health care services or supplies that are proper and necessary for the diagnosis or treatment of disease, illness, or injury and without which the patient can be expected to suffer prolonged, increased or new morbidity, impairment of function, dysfunction of a body organ or part, or significant pain and discomfort. These services meet the standards of good medical practice in the local area, are the lowest cost alternative, and are not provided mainly for the convenience of the member or provider. Medically necessary services also include those services defined in any federal or state coverage mandate, Evidence of Coverage documents, Medical Policy Statements, Provider Manuals, Member Handbooks, and/or other policies and procedures.

This Policy does not ensure an authorization or Reimbursement of services. Please refer to the plan contract (often referred to as the Evidence of Coverage) for the service(s) referenced herein. If there is a conflict between this Policy and the plan contract (i.e., Evidence of Coverage), then the plan contract (i.e., Evidence of Coverage) will be the controlling document used to make the determination.

CSMG Co. and its affiliates may use reasonable discretion in interpreting and applying this Policy to services provided in a particular case and may modify this Policy at any time.

A. SUBJECT

Transthoracic Echocardiogram

B. BACKGROUND

Reimbursement policies are designed to assist you when submitting claims to CareSource. They are routinely updated to promote accurate coding and policy clarification. These proprietary policies are not a guarantee of payment. Reimbursement for claims may be subject to limitations and/or qualifications. Reimbursement will be established based upon a review of the actual services provided to a member and will be determined when the claim is received for processing. Health care providers and their office staff are encouraged to use self-service channels to verify member's eligibility.

It is the responsibility of the submitting provider to submit the most accurate and appropriate CPT/HCPCS code(s) for the product or service that is being provided. The inclusion of a code does not imply any right to reimbursement or guarantee claims payment.

CareSource will reimburse participating providers, for transthoracic echocardiograms (TTE) rendered to CareSource members, as set forth in this policy.

C. DEFINITIONS

Transthoracic echocardiogram (TTE) - is a type of echocardiogram, in which an ultrasound probe (or ultrasonic transducer) is placed on the chest or abdomen of the patient to obtain various views of the heart.

D. POLICY

- I. CareSource does not require a prior authorization for a transthoracic echocardiogram (TTE).
- II. A transthoracic echocardiogram may be reimbursed according to Centers for Medicare and Medicaid Services (CMS) LCD 34338 guidelines using appropriate CPT and modifier codes (if applicable).
- III. A transthoracic echocardiogram may be reimbursed according to Medicaid guidelines using appropriate CPT and/or HCPCS and modifier codes (if applicable).
- IV. Reimbursement is based on submitting a claim with the appropriate ICD-10 diagnosis code to match the transthoracic echocardiogram CPT code.
- V. If the appropriate ICD-10 diagnosis code is not submitted with the CPT code, the claim will be denied.

Note: Although a transthoracic echocardiogram does not require a prior authorization, compliance with the provisions in this policy may be monitored and addressed through post payment data analysis and subsequent medical review audits.

E. CONDITIONS OF COVERAGE

Reimbursement is dependent on, but not limited to, submitting CMS approved HCPCS and CPT codes along with appropriate modifiers. Please refer to the Medicare fee schedule:

<https://www.cms.gov/apps/physician-fee-schedule/overview.aspx>

- **The following list(s) of codes is provided as a reference. This list may not be all inclusive and is subject to updates. Please refer to the above referenced source for the most current coding information.**

CPT Codes	Definition
93303	Transthoracic echocardiography for congenital cardiac anomalies; complete
93304	Transthoracic echocardiography for congenital cardiac anomalies; follow-up or limited study
93306	Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, with spectral Doppler echocardiography, and with color flow Doppler echocardiography
93307	Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, complete, without spectral or color Doppler echocardiography
93308	Echocardiography, transthoracic, real-time with image documentation (2D), includes M-mode recording, when performed, follow-up or limited study

ICD-10	Description
B39.4	Histoplasmosis capsulati, unspecified (HIV)
B39.5	Histoplasmosis duboisii (HIV)
I32	ICD-9 - Pediculosis and phthirus infestation
I39	ICD-9 - Late effects of other infectious and parasitic diseases
S26.90XA	Unspecified injury of heart, unspecified with or without hemopericardium, initial encounter
S21.309A	Unspecified open wound of unspecified front wall of thorax with penetration into thoracic cavity, initial encounter
S14.111A	Complete lesion at C1 level of cervical spinal cord, initial encounter
S14.121A	Central cord syndrome at C1 level of cervical spinal cord, initial encounter
S12.000B	Unspecified displaced fracture of first cervical vertebra, initial encounter for open fracture
S12.001B	Unspecified nondisplaced fracture of first cervical vertebra, initial encounter for open fracture
S14.112A	Complete lesion at C2 level of cervical spinal cord, initial encounter
S14.122A	Central cord syndrome at C2 level of cervical spinal cord, initial encounter
S12.100B	Unspecified displaced fracture of second cervical vertebra, initial encounter for open fracture
S12.101B	Unspecified nondisplaced fracture of second cervical vertebra, initial encounter for open fracture
S14.113A	Complete lesion at C3 level of cervical spinal cord, initial encounter
S14.123A	Central cord syndrome at C3 level of cervical spinal cord, initial encounter
S12.200B	Unspecified displaced fracture of third cervical vertebra, initial encounter for open fracture
S12.201B	Unspecified nondisplaced fracture of third cervical vertebra, initial encounter for open fracture
S14.114A	Complete lesion at C4 level of cervical spinal cord, initial encounter

S14.124A	Central cord syndrome at C4 level of cervical spinal cord, initial encounter
S12.300B	Unspecified displaced fracture of fourth cervical vertebra, initial encounter for open fracture
S12.301B	Unspecified nondisplaced fracture of fourth cervical vertebra, initial encounter for open fracture
S21.309A	Unspecified open wound of unspecified front wall of thorax with penetration into thoracic cavity, initial encounter
S26.02	Laceration of heart with hemopericardium

F. RELATED POLICIES/RULES

G. REVIEW/REVISION HISTORY

DATE		ACTION
Date Issued	03/08/2017	New policy.
Date Revised	11/14/2018	LCD L34337 has been rescinded and replaced with LCD L34338. Updated in Section D. II. of the policy
Date Effective	012/01/2017
