Reimbursement Policies prepared by CSMG Co. and its affiliates (including CareSource) are intended to provide a general reference regarding billing, coding and documentation guidelines. Coding methodology, regulatory requirements, industry-standard claims editing logic, benefits design and other factors are considered in developing Reimbursement Policies.

In addition to this Policy, Reimbursement of services is subject to member benefits and eligibility on the date of service, medical necessity, adherence to plan policies and procedures, claims editing logic, provider contractual agreement, and applicable referral, authorization, notification and utilization management guidelines. Medically necessary services include, but are not limited to, those health care services or supplies that are proper and necessary for the diagnosis or treatment of disease, illness, or injury and without which the patient can be expected to suffer prolonged, increased or new morbidity, impairment of function, dysfunction of a body organ or part, or significant pain and discomfort. These services meet the standards of good medical practice in the local area, are the lowest cost alternative, and are not provided mainly for the convenience of the member or provider. Medically necessary services also include those services defined in any federal or state coverage mandate, Evidence of Coverage documents, Medical Policy Statements, Provider Manuals, Member Handbooks, and/or other policies and procedures.

This Policy does not ensure an authorization or Reimbursement of services. Please refer to the plan contract (often referred to as the Evidence of Coverage) for the service(s) referenced herein. If there is a conflict between this Policy and the plan contract (i.e., Evidence of Coverage), then the plan contract (i.e., Evidence of Coverage) will be the controlling document used to make the determination.

CSMG Co. and its affiliates may use reasonable discretion in interpreting and applying this Policy to services provided in a particular case and may modify this Policy at any time.

A. SUBJECT

Thyroid Testing

B. BACKGROUND

Reimbursement policies are designed to assist you when submitting claims to CareSource. They are routinely updated to promote accurate coding and policy clarification. These proprietary policies are not a guarantee of payment. Reimbursement for claims may be subject to limitations and/or qualifications. Reimbursement will be established based upon a review of the actual services provided to a member and will be determined when the claim is received for processing. Health care providers and their office staff are encouraged to use self-service channels to verify member's eligibility.

It is the responsibility of the submitting provider to submit the most accurate and appropriate CPT/HCPCS code(s) for the product or service that is being provided. The inclusion of a code does not imply any right to reimbursement or guarantee claims payment.

Thyroid function studies are used to detect the presence or absence of hormonal abnormalities of the thyroid and pituitary glands. These abnormalities may be either primary or secondary and often but not always accompany clinically defined signs and symptoms indicative of thyroid dysfunction. CareSource considers testing thyroid function medically necessary for members consistent with symptoms of thyroid disease.

C. DEFINITIONS

- Hyperthyroidism: Condition occurs when the thyroid gland produces too much thyroxine causing sudden weight loss, rapid or irregular heartbeat, sweating and nervousness
- Hypothyroidism: Condition occurs when the thyroid gland doesn't produce enough hormones causing weight gain, joint pain, infertility and heart disease.

D. POLICY

I. CareSource does not require a prior authorization for thyroid testing.

II. CareSource considers thyroid function testing medically necessary for the following:
   A. Members who are clinically stable up to 2 times per year
   B. Members who have symptoms consistent with hypothyroidism
   C. Members who have symptoms consistent with hyperthyroidism
   D. Members who are asymptomatic and 60 years of age or older, performed every 5 years
   E. Members who are asymptomatic but are considered high risk due to the following:
      1. Family or personal history of thyroid disease, this should be limited to a one time screening
      2. Family or personal history of Type I Diabetes or other autoimmune disorder, this should be limited to a one time screening
      3. Member who is prescribed medications that may interfere with thyroid function

III. Reimbursement is based on submitting a claim with the appropriate ICD-10 diagnosis code to match the thyroid testing CPT code.

IV. If the appropriate ICD-10 diagnosis code is not submitted with the CPT code, the claim will be denied.

Note: Although this service does not require a prior authorization, CareSource may request documentation to support medical necessity. Appropriate and complete documentation must be presented at the time of review to validate medical necessity.

E. CONDITIONS OF COVERAGE

Reimbursement is dependent on, but not limited to, submitting CMS approved HCPCS and CPT codes along with appropriate modifiers. Please refer to the Ohio Medicaid fee schedule. http://medicaid.ohio.gov/Portals/0/Providers/FeeScheduleRates/App-DD.pdf
