Paying Your Premium On Time is Important

It is important to pay the total premium amount due by the due date! If we do not receive your premium payment by the due date on the invoice, then your account is past due. By not paying your premium payment on time and allowing your account to become past due, your medical and pharmacy benefits are at risk.

If your premium payment becomes 30 days or more past due, your pharmacy benefits will be suspended. You will be expected to pay for prescriptions until your account is paid in full by the due date on the invoice.

In addition, if your premium payment becomes 30 days or more past due, your Medical benefits through a physician or facility are at risk and we are required to notify your providers regarding this delinquency. It will be up to the physician or facility to decide whether or not you will be required to pay at time of service.

If you have applied for new coverage, payment for any past due premiums from the previous 12 months and the premium for the first month of new coverage must be paid in full by the due date to activate the new coverage.

For more information on what will occur if you do not pay your premium payments on time, please refer to your *Evidence of Coverage - Section 2 - How the Plan Works*.

Check your Payments and Balance

You can see when your last payment was posted by clicking **Account** at the top of the My CareSource account screen. This will show your total amount due. Click the link on the right side of the screen that says **View Account Activity**, and you will be able to see each payment and when it was received. You can also view and print invoices or request a copy of an invoice.

ID CARDS

You will receive a CareSource ID card in a separate mailing and it will be available digitally through the CareSource mobile app. Your ID card lists each member of your family who has health insurance coverage under the Plan. Be sure to show your card each time you go to the doctor, hospital, urgent care center and pharmacy.

ID Cards will show additional important contact information to help you get to the right area fast, including our 24/7 Nurse Advice Line, Vision Benefits Manager, Hearing Benefits Manager and Fitness Benefits Manager.

NOTE: You should always have your ID card ready when you call Member Services or any benefits managers. The member ID number listed on your card will help us serve you faster.

STAYING IN TOUCH

In addition to your monthly invoice, CareSource may send you additional communications to keep you up to date on your plan details and benefits available to all members.

Some of these communications may be about you or your family's specific health conditions, special programs offered to you, or care management opportunities. Some are just to keep you updated with the latest information about CareSource and your plan. Regular communications you will receive include our member newsletters and Explanations of Benefits.

Go Green!

You can choose to receive many communications through your My CareSource account, or through text or email. When you choose email or text, we will send you a notice that a document is available in your My CareSource account. Please remember that even if you choose email and/or text notifications, you will still receive mail from us as required by law.

Be sure to tell us your preferred method of contact on your My CareSource account as we continue to work to streamline our communication.

Member Newsletters

Our MemberSource newsletter is sent out quarterly, and is available online at **CareSource.com/marketplace**, under the ***Education*** link.

The quarterly newsletter is used to help you take the fullest advantage of your plan benefits, give useful health and wellness information, and keep you up to date with what's happening at CareSource. You can view the most current issue, as well as past issues at **CareSource.com/marketplace**, under ***Education***.

Explanation of Benefits

When you visit the doctor, or have other health care services, we will send you an Explanation of Benefits (EOB). It will outline the care you received, the cost, what CareSource pays for the service and the part of the cost that you may be responsible for paying. Your EOB is not a bill. It will tell you:

- The member who got the service
- The provider who billed for the service
- The date the service was received
- A description of the service
- The amount CareSource paid for the service
- How much you owe or already paid for the service, if anything

If you do owe for a service, you will get a bill from the provider. We encourage you to save these EOB statements and pay only the amount listed as your responsibility. If you get a bill from a provider for more than the amount the EOB shows as your responsibility, or for services you did not receive, call Member Services.

It is important that you review your EOBs to be sure that you are being charged for the correct services and the correct amounts. The EOB is not a bill, it is a summary of the claim for services that your provider submitted and what CareSource paid to the provider. Your review ensures that you are only being charged for services that you have received, and can help us and your provider prevent fraud.

Below is a sample of the summary pages of an EOB. The pages that come after these list individual charges for each service. Your Explanation of Benefits can be several pages long.

WHERE TO GET CARE

Generally, you must receive care from a CareSource network provider. A network provider is a doctor, pharmacy, hospital, clinic or other health care provider contracted with CareSource to provide health care services to our members.

You can find network providers listed through our mobile app, through our ***Find a Doctor*** tool at **CareSource.com/marketplace** or you can request a printed Provider Directory for a listing of providers near you. You may also call Member Services and a representative will help find a network provider near you.

In order to have your health care services covered by CareSource, you must get them from a network provider, except as provided for in your plan Evidence Coverage. Please refer to your plan's Evidence of Coverage for additional details about when you can receive care from a non-network provider.

Primary Care Provider

Your main source of care should be your Primary Care Provider (PCP), also known as a doctor, a primary care physician, a physician, a health care provider, or just provider. Your PCP will get to know you, and can coordinate any additional or extra care you may need, such as testing, or physician specialist referrals. Your PCP should be familiar with your CareSource plan and what is covered, but it is always a good idea to check with your PCP or with CareSource to ensure a test, specialist or treatment is covered.

Going to the same PCP each time you need care will help your PCP get to know you and your needs. The more familiar your PCP is with you and your medical history, the better your PCP will be able to treat you. You can see any in-network PCP or provider that you like.

Selecting a PCP through your My CareSource account or the CareSource mobile app will let us know who your PCP is, and ensure that we are applying the right cost share amount to your claims. It will also allow us to communicate more effectively with your PCP about your care and important health alerts. You do not have to notify us if you change your PCP, and you can change as often as you like. If you want to change the PCP you have on record with us, it is easiest to change it through your My CareSource account.

To locate a PCP, specialist or other in-network provider, use our ***Find A Doctor*** tool available through **CareSource.com/marketplace** or on the CareSource mobile app. You may also call Member Services and they will help you locate a provider.

CareSource24 Nurse Advice Line

Our CareSource24®, Nurse Advice Line is available 24 hours a day, 365 days a year. If you are injured or sick, call the CareSource24 number on the back of your ID card. A Registered Nurse will ask you questions and advise you: if care is needed, what kind of care, when it is needed and who should provide it. If the nurse refers you to MYidealDOCTOR for a telemedicine visit, you can be connected without making another phone call. CareSource24 services are available at no cost to you.

When you call CareSource24, a nurse can help you*:

- Discuss care advice for an injury or illness
- Decide when to visit a health care provider, urgent care, or emergency room
- Understand a health condition
- Make a list of questions before visiting a health care provider
- Learn about medication side effects, generic substitutes, and drug-to-drug interactions

Call CareSource24 at **1-866-206-4240**.

** CareSource24 Registered Nurses do not provide care or treatment and cannot diagnose conditions. CareSource24 Registered Nurses provide you with general information about your health related questions. In the case of a true medical emergency, always call 911 first.*

Telemedicine

You can speak with a doctor anytime using your phone or computer with Telemedicine! CareSource has partnered with MYidealDOCTOR to provide telemedicine services to all marketplace plan members. Telemedicine is not meant to replace your primary care provider, but to augment the care you get from your PCP. If you need to see a provider soon, but can't get an appointment quickly, or if your need is urgent but not an emergency, consider MYidealDOCTOR.

Getting care is easy. With one phone call, you can consult with a board certified physician, receive advice, and if necessary, have a prescription called in to a local pharmacy. MYidealDOCTOR is available 24 hours a day, 7 days a week. There are four easy ways to access MYidealDOCTOR, and you can use the CareSource app to do any of them.

- 1) Call 1-855-879-4332
- 2) Go online to myidealdoctortelehealth.com
- 3) Download the MYidealDOCTOR app to your phone
- 4) Use the CareSource mobile app

If it is your first visit, you will need to register using information on your CareSource ID card. Then enter the reason for your call. A doctor will call you back for your consultation, normally within 15 minutes.

This handy service is available 24/7/365 and can be used to treat many common health problems, like:

- Coughs/Colds/Flu
- Rashes
- Congestion/sinus infection
- And more
- Allergies

Best of all, a telemedicine consultation has the same copay as a PCP visit!

MYidealDOCTOR is a trademark of MYidealDOCTOR, LLC.

Convenience Care Clinics

Convenience care clinics offer an easy option when you need care for minor injuries or illness. CareSource members can visit clinics located inside select drug and grocery stores for care. Most clinics are open into the evening and on weekends, and most take walk-ins. You can visit convenience care clinics for the same cost as a PCP visit copay.

You can find convenience care clinics by using our **Find A Doctor** tool on **CareSource.com** or using the CareSource mobile app. Look under "Clinic" for Type and then under "Urgent Care/After Hours" for the Specialty to find convenience care clinics near you. You can also call Member Services if you do not have internet access or need assistance finding a clinic near you. If you aren't sure if a convenience care clinic is right for your situation, please call CareSource24 for guidance.

Urgent Care Clinics

Urgent care clinics should be used for situations that require prompt attention, when you cannot get in to see your Primary Care Provider (PCP) quickly enough. You should also consider going to an urgent care clinic when you require a higher level of care than your PCP or local convenience care clinic can provide. If you aren't sure where to go for care, call our 24 hour Nurse Advice Line, CareSource24. The number is on the back of your ID card.

To find the nearest urgent care clinic, use our ***Find a Doctor*** online tool and look under "Clinic" for Type, then select Urgent Care/After Hours for the Specialty. You can call our Member Services department, or CareSource24 for help finding an urgent care. You can also call a clinic near you directly and ask them if they accept CareSource Marketplace plans.

Hospital Emergency Room

A hospital emergency room visit should be reserved only for true emergencies. They are typically the most expensive course of action for you, and if your issue is not a true emergency, you may have to wait an extended time to get attention and your claim may not be covered. Some examples of when emergency services are needed include:

- Miscarriage/pregnancy with vaginal bleeding
- Severe chest pain
- Shortness of breath
- Loss of consciousness
- Seizures/convulsions
- Uncontrolled bleeding
- Severe vomiting
- Rape
- Major burns
- Drug overdose
- Psychosis

You do not have to contact CareSource for an OK before you get emergency services. If you have an emergency, call 911 or go to the nearest emergency room (ER) or other appropriate setting. If you are not sure whether you need to go to the emergency room, call your PCP or the CareSource24 Nurse Advice Line at **1-866-206-4240** (TTY: 1-800-750-0750 or 711). Your PCP or the CareSource24 Registered Nurse can talk to you about your medical problem and give you advice on what you should do.

Remember, if you need emergency services:

- Go to the nearest hospital emergency room or other appropriate setting. Be sure to tell them that you are a CareSource member and show your ID card.
- If the provider treating you for an emergency takes care of your emergency but thinks you need other medical care to treat the problem that caused your emergency, then you or the provider must call CareSource.
- If you are able, call your PCP as soon as you can to let him or her know that you had a medical emergency, or have someone call for you. Call your PCP as soon as you can after the emergency to schedule any follow-up services.
- If the hospital has you stay (admits you to a room in the hospital), please make sure that CareSource is called within 24 hours.

Please note: The use of non-network hospitals for emergency services is a benefit of your plan, but will only be covered to the extent outlined in your Evidence of Coverage. Members that receive emergency services from non-network hospitals may be responsible for the balance of any charges that are not paid by CareSource. Please refer to your *Evidence of Coverage, Section 4 – Your Covered Services – Emergency Health Care Services*, for more information.

When you are Outside of our Service Area

You may get sick or hurt while traveling outside of our service area. If this happens you can get medically necessary covered services for urgent or emergency care from a provider that is not in our network.

Prior to seeking urgent or emergency care, we encourage you to call your PCP or CareSource24 for guidance, but this is not required. You should get urgent care from the nearest and most appropriate health care provider. Urgent and emergency care is covered both in and out of our service area.

If you receive urgent or emergency care from a provider who is not a network provider, you may need to submit the bill you receive to CareSource with a claim form. You can get a member claim form online at **CareSource.com/marketplace**, on the Forms page under **Tools and Resources**, or by calling Member Services.

CURRENT TREATMENT PLANS AND CONTINUITY OF CARE

Sometimes members who enroll in CareSource plans already have treatment or care planned. If the associated provider is not in our network, please contact us prior to obtaining that service. CareSource will be able to confirm if you qualify for a “Continuity of Care” exception to see an Out of Network provider. Note that these exceptions are limited to specific situations and will only be approved for certain timeframes. Services, outside of emergencies, obtained from an Out Of Network provider without prior approval will not be covered. See the Prior Authorization section of this handbook for more information.

Prescription Drugs

We want to make sure you get the safest, most cost-effective drugs for your needs. CareSource uses a Marketplace Drug Formulary, also known as a Formulary. Drugs are categorized into tiers that represent different cost-sharing amounts. To learn more about how to use our Formulary, look in the introduction section of the document. The Formulary can be found on the Pharmacy pages of our website. If you do not have access to the Internet, please call Member Services for assistance.

Some drugs may have limits on how much can be dispensed to you at one time (called quantity or dosing limits). You may need to try one drug before taking another (called step therapy).

We may also require your provider to submit clinical information to us to explain why a specific drug is being used (called clinical prior authorization). These are called Utilization Management reviews. We must approve the request before you can get the drug. These requirements help limit misuse and abuse, and ensure you get the most appropriate drugs.

Drugs not listed on the Formulary are generally not covered without the prior approval of an exceptions request.

Your provider can help you get an exception, or you can submit an electronic Member Exception Request at CareSource.com/marketplace, on the Forms page under **Tools and Resources**.

To find out which drugs are on the Formulary, which tier they are in, and whether they require Utilization Management review, you can:

- Use our search tool, **Find My Prescriptions** under **Tools and Resources**. After you select your plan, you can search by drug name (generic or brand). This tool will confirm coverage, if prior approval is needed, and your cost.
- Look at the full list on our website. You can find the Formulary on the Pharmacy page under **Plans**.
- Call our Member Services department and ask for help with your prescriptions.

Network Pharmacies

In order to have your prescriptions covered by CareSource, you must get them filled at a pharmacy in our network. Our network includes many major plus many smaller pharmacies. We also have mail-order pharmacies in our network. To see a full list of network pharmacies, go to our ***Find A Doctor*** tool at **CareSource.com/marketplace**.

Medication Therapy Management

At CareSource, we know the impact that proper medication use can have on your health. That's why we have a Medication Therapy Management (MTM) program for our members. This program can help you learn about your medications, prevent or address medication-related problems, decrease costs, and stick to your treatment plan.

The MTM program may be available from your local pharmacists if they have chosen to take part. In many cases, a pharmacist will reach out to you and ask if you are interested in learning more about your medications. They ask because they want to help you. Through this program, your local pharmacist may get alerts and information about your medications and decide if you may need extra attention. They offer ways to help you with your medications and how to take them the right way. They will also work with your provider and others to address your needs and improve how you use your medications. The pharmacist may ask to schedule time with you to go over all of your medications, including any pills, creams, eye drops, herbals or over-the-counter items.

This service and the pharmacist's help and information are all part of being a CareSource member and are available at no cost to you.

MTM Benefits to Members and Health Partners

- Improves safe use of medications
- Provides better coordination of care with all your providers and other caregivers
- Gives you more information about your medications and how to use them correctly
- Adds another person to help you with your overall health care

Services that Require a Prior Authorization

CareSource keeps track of the services you get from health care providers. We discuss some services with your providers before you get them. We do this to make sure the services are appropriate and necessary.

Your doctor will assist you in getting a prior authorization from us for services that need one. For example, some procedures and most inpatient hospital stays require a prior authorization.

Except in emergencies, call Member Services before getting these services from any provider:

- Transplants (like kidney or bone marrow)
- Any surgery
- Cancer care
- Care after a hospital stay within the last 30 days
- Medical equipment
- Home health services

You do not need to call if the provider is in the CareSource Marketplace network *and* the planned services do not need a prior authorization.

Many services do not need a prior authorization. You do not need a prior authorization to see your PCP or most in-network specialists. You do not need a prior authorization for lab work, X-rays or many outpatient services either, as long as the provider is in our network. Your provider will tell you when you need these, but you are responsible to ensure that you receive these types of care from an in-network provider.

A list of the services that require prior authorization is available through your My CareSource account and on **CareSource.com**. Hover over **Plans**, select **Plan Documents** under **Marketplace**. Pick your state, then **General Plan Information** from the menu or from the **Quick Links** menu. Your Evidence of Coverage also contains information about prior authorizations.

PLANNING AHEAD

Advance Directives

You have the right to make Advance Directives. You sign these documents now in case you are not able to make your own health care decisions in the future.

Advance Directives are used if you become unable to communicate because of an illness or injury. They let your doctor and others know your wishes concerning future medical care. You can also use them to give someone you trust the right to make decisions for you if you are not able. You sign them while you are still healthy and able to make such decisions.

We do not put any limits on your right to have an Advance Directive under state law. Contact your attorney or local legal aid service for more information on Advance Directives*. You can learn more about Advance Directives on our website at **CareSource.com**.

** Please Note: This is not legal advice and is provided for general information purposes only.*

Mental Health Treatment Directive

You may also state your specific preferences regarding the mental health treatment that you may or may not wish to receive in the event you become unable to make your own decisions. For example, you may want to only be treated at a certain facility or only be given certain medications.

For more information on how you can state your preferences on the mental health treatment you wish to receive, please visit **CareSource.com**. Contact your attorney or local legal aid service for more information on mental health treatment directives*.

** Please Note: This is not legal advice and is provided for general information purposes only.*

GUARDIANSHIP

What is a Guardian?

A guardian is a person appointed by a court to be legally responsible for another person.

When Will a Guardian be Appointed?

A court will usually appoint a guardian to manage the personal affairs of an adult who can no longer make safe and sound decisions by themselves due to legal or mental incapacity. A minor may also have a guardian appointed by a court in certain situations.

How do I Obtain a Guardianship?

Only a court may appoint a guardian. The court that usually appoints a guardian is your local probate court, although this may be different depending on where you live. Contact your local court, a local attorney or local legal aid service for more information on guardianship*.

If you obtain a guardianship for a CareSource member, please send a copy of the court documents to the CareSource Privacy Office so that it may be added to the member's record. See the *Privacy Notice Statement* section in this handbook for the address and contact information for the Privacy Office.

** Please Note: This is not legal advice and is provided for general information purposes only.*

QUALITY IMPROVEMENT PROGRAM

Program Purpose

Your care means a lot to us. CareSource continually reviews the quality of care and service offered to our members. We put programs in place to improve how we work internally, provide health care services to members, and help members with their health.

Our Quality Improvement Program receives a written evaluation each year. This helps determine how well our Quality Improvement activities are working. A cross-functional team participates in the evaluation process.

In 2015, CareSource (then known as CareSource Just4Me™) was awarded an accreditation status of Accredited by the National Committee for Quality Assurance (NCQA®). This accreditation status shows our commitment to service and clinical quality that meets or exceeds requirements for consumer protection and quality improvement.

Program Scope

CareSource supports an active, ongoing, and comprehensive Quality Improvement Program.

The Quality Improvement Program will:

- Advocate for members

Quality Measures

CareSource uses an annual member survey, *Qualified Health Plan Enrollee Experience*, to find out how our members feel about the quality of the health care they receive. You might receive a request to complete this survey. Your experiences and opinions are important to us. Please complete and return the survey promptly.

This is a quality survey overseen by the United States Department of Health and Human Services—Agency for Healthcare Research and Quality (AHRQ). Potential measures for the Health Insurance Marketplace include:

- Customer Service
- Getting Care Quickly
- Getting Needed Care
- How Well Doctors Communicate
- Ratings of All Health Care, Health Plan, Personal Doctor, Specialist

We continually assess the quality of care and services offered to you. We use an objective monitoring and evaluation system to create programs that will improve your health outcomes.

CareSource uses the Healthcare Effectiveness Data and Information Set (HEDIS®) to measure the quality of care delivered to members. HEDIS is one of the most widely used means of health care measurement in the United States. HEDIS is developed and maintained by The National Committee for Quality Assurance (NCQA).

The HEDIS tool is used by America's health plans to measure important dimensions of care and service, and allows for comparisons across health plans in meeting state and federal performance measures and national HEDIS benchmarks. HEDIS measures evidence-based care and addresses the most pressing areas of care. Potential quality measures for the Health Insurance Marketplace include:

- Wellness and Prevention
 - Preventive Screenings (breast cancer, cervical cancer, chlamydia)
 - Well-child care
- Chronic Disease Management
 - Comprehensive diabetes care
 - Controlling high blood pressure
- Behavioral Health
 - Follow-up after hospitalization for mental illness
 - Antidepressant medication management
 - Follow-up for children prescribed adhd medication

- Safety
 - Use of Imaging Studies for Low Back Pain

HEDIS® and NCQA® are registered trademarks of the National Committee for Quality Assurance.

CMS evaluates qualified health plans (QHPs offered through the Marketplace using QHP Enrollee Survey response data. QHP issuers contract with HHS-approved survey vendors that independently conduct the survey each year. QHP Enrollee Survey results may change from one year to the next. Clinical Practice and Preventive Guidelines

Your health is important. That's why CareSource uses and promotes preventive and clinical guidelines to help guide the care offered to our members.

Health information and clinical practice guidelines are made available to CareSource members through member newsletters, the CareSource member website, or upon request. Preventive Guidelines and health links are available to members and providers on the website or in print.

Preventive and Clinical Guidelines are reviewed at least every two years, and are updated as necessary. Updated guidelines are then presented to the CareSource Quality Enterprise Committee.

Topics for guidelines are identified by analyzing CareSource member data. Guidelines may include, but are not limited to:

- Behavioral Health (i.e., depression)
- Adult Health (i.e., hypertension, diabetes)
- Child/Adolescent Health (i.e., immunizations)
- Population Health (i.e., obesity, tobacco cessation)

WORD MEANINGS

Annual Deductible means the amount you must pay for covered services in a benefit year before we will begin paying for certain benefits in that benefit year. Copayments do not count toward the annual deductible. Network benefits for defined preventive health care services are never subject to payment of the annual deductible.

Annual Out-of-Pocket Maximum means the maximum amount you pay in a benefit year relating to obtaining benefits. When you reach the annual out-of-pocket maximum, benefits for covered services that apply to the annual out-of-pocket maximum are payable at 100% of eligible expenses during the rest of the benefit year. Payments toward the annual deductible, copayments and coinsurance for covered services will apply to your annual out-of-pocket maximum, unless otherwise noted below.

The following costs will never apply to the annual out-of-pocket maximum:

- Any charges for services that are not covered services;
- Copayments and coinsurance amounts for covered services available by an optional rider/enhancement, unless specifically stated otherwise in the rider/enhancement; and
- Copayments and coinsurance for adult dental, vision and fitness benefits or any other optional rider/enhancement.

Even when the annual out-of-pocket maximum has been reached, you will still be required to pay:

- Any charges for non-covered services;
- Charges that exceed eligible expenses;
- Copayments and coinsurance amounts for covered services available by an optional rider/enhancement, unless specifically stated otherwise in the rider/enhancement; and
- The amount of any benefits if you do not obtain authorization from us when required to do so under the terms of the plan.

Coinsurance means the charge, stated as a percentage of eligible expenses, that you are required to pay for certain covered services after the annual deductible is satisfied and until you reach your annual out-of-pocket maximum.

Copayment means the charge, stated as a flat dollar amount, that you are required to pay for certain covered services.

Covered Services means those health care services that are (1) covered by a specific benefit provision of the plan; (2) not excluded under the plan; and (3) determined to be medically necessary per the plan's medical policies and nationally recognized guidelines; and that we determine to be all of the following: provided for the purpose of preventing, diagnosing, or treating a sickness, injury, behavioral health disorder, substance use disorder, or their symptoms; consistent with nationally recognized scientific evidence, as available, and prevailing medical standards and clinical guidelines, as described below; and not provided for the convenience of you, a Provider, or any other person.

In applying the above definition, "scientific evidence" and "prevailing medical standards and clinical guidelines" have the following meanings: "Scientific evidence" means the results of controlled clinical trials or other studies published in peer-reviewed, medical literature generally recognized by the relevant medical specialty community. "Prevailing medical standards and clinical guidelines" means nationally recognized professional standards of care including, but not limited to, national consensus statements, nationally recognized clinical guidelines, and national specialty society guidelines.

Evidence of Coverage (EOC) means the important legal document that describes the relationship between you and CareSource. It serves as your contract with CareSource and it describes your rights, responsibilities, and obligations as a covered person under the plan. The EOC, including the Schedule of Benefits (SB), also tells you how the plan works and describes the covered services you and your dependents are entitled to, any conditions and limits related to covered services, the health care services that are not covered by the plan, and the annual deductible, copayments, and coinsurance you must pay when you receive covered services.

Explanation of Benefits (EOB) means the statement you may receive from CareSource that shows what health care services were billed to CareSource and how they were paid. An EOB is not a bill.

Member has the same meaning as covered person. Covered person means an individual, including you, who is properly enrolled under the plan.

Network Provider means a provider who has entered into a contractual arrangement with us or is being used by us, or another organization that has an agreement with us, to provide certain covered services or certain administration functions for the network associated with this EOC. A network provider may also be a non-network provider for other services or products that are not covered by the contractual arrangement with us as covered services. In order for a pharmacy to be a network provider, it must have entered into an agreement with the pharmacy benefit manager (PBM) to dispense prescription drugs to covered persons, agreed to accept specified reimbursement rates for prescription drugs, and been designated by the PBM as a network pharmacy.

Plan means CareSource.

Premium means the periodic fee required for each member, in accordance with the terms of the plan.

Marketplace Drug Formulary means a list that categorizes into tiers medications and products that have been approved by the U.S. Food and Drug Administration. This list is subject to periodic review and modification . You can find out which tier a particular prescription drug has been assigned to by contacting CareSource Member Services at the toll-free number on your ID card or by logging onto [CareSource.com/marketplace](https://www.caresource.com/marketplace) and going to the pharmacy pages.

Prior Authorization means a benefit or service must be approved by CareSource before the service is performed or the benefit is received or prescribed, as applicable. This includes prospective or utilization review procedures conducted before providing a health care service.

Schedule of Benefits (SB) means the written description of the benefits that are available for Covered Services that is provided to you when you are enrolled under the plan. The SB shows covered services and their associated costs, and is included in your Evidence of Coverage..

Summary of Benefits and Coverage (SBC) means a summary of the benefits and costs for covered services that is provided to you when your enrollment is received by CareSource. The SBC includes examples of the coverage you will have for certain health events, such as a broken bone or pregnancy.

Note: Your EOC has more details about these terms and many more. You should read the entire EOC and keep it in a safe place for future reference.
