

We do this by...

Bridging the gap to better care

Building healthy communities

We focus on...

Priority 1

Supporting health education and promoting healthy habits

Priority 2

Improving maternal, infant and child health outcomes

Priority 3

Ensuring families have safe, stable and healthy homes and neighborhoods

Priority 4

Strengthen the capacity of a diverse health and 21st Century workforce

We invest in programs that...

- Promote healthy **behaviors**
- Increase access to and utilization of **prevention programs**
- Help people manage **chronic illness**
- Support **aging adults** living independent, healthy lives
- Engage people in **mental and behavioral health** services
- Encourage **equitable, community-based** delivery of care

- Increase access to and use of **prenatal and postpartum care**
- Promote **women's health** services
- Help **parents** make educated decisions on their children's health
- Support **children** leading healthy, safe lives physically and mentally
- Encourage **equitable, community-based** maternal and infant care

- Support the **economic vitality and diversity** of the Dayton region business community
- Encourage a **vibrant Dayton community** through arts and culture
- Help low-income families in the Dayton region access **safe homes, healthy food and quality care**
- Promote availability of and access to public **green spaces and walking trails**

- Promote youth and adult students choosing **careers in health care**
- Increase access to **jobs for people with disabilities**
- Promote a **culturally-competent health care** workforce
- Ensure at-risk children have access to **social, mental and behavioral** health resources and care
- Help students access necessary **pediatric dental services**

Progress is demonstrated by...
