

## ***Network Notification***

---

**Date:** July 3, 2014

**Number:** OH-P-2014-15

**To:** CareSource Just4Me™ Providers

**From:** CareSource®

**Subject:** CareSource Just4Me Vision Benefit Update

---

Previously CareSource Just4Me covered new and established patients for intermediate and comprehensive optometry exams (codes 92002 & 92004, 92012 & 92014).

After receiving feedback from leadership in the optometry community, we have enhanced our medical benefits around optometry to allow for coverage of the E&M codes with an appropriate accompanying diagnosis that is unrelated to routine screenings. The following codes are now billable:

**99201-99205 and  
99211-99215.**

We are also allowing use of 92250 for fundus photography for patients with complications that make dilation risky, or unsuitable (documentation and diagnosis required).
