

Network Notification

Date: August 31, 2016
To: Kentucky Medicaid Health Partners
From: Humana – CareSource
Subject: Claims Recoupment When Medicare is Primary

A change to Humana – CareSource's contract with the Commonwealth of Kentucky, now enables Humana – CareSource to pursue recoupment of payments to health partners when the Member has Medicare as Primary Coverage. Currently, CareSource Claims Operations does not recoup directly from the health partner. Claims will utilize reports that search member records for Medicare, and will use the information to recoup from the provider when Medicare is the responsible party. Previously CareSource had taken no action.

Implementation of this amendment to the Kentucky contract is effective July 1, 2016. Access to covered services will not be affected or restricted due to COB collection.
