

Network Notification

Date: July 13, 2015

To: General Practice Physicians and Pediatricians

From: Humana – CareSource®

Subject: Clinical Guidelines Update for Pediatrics

Humana – CareSource wants to remind physicians that its preferred source of pediatric guidelines for both physicians and parents is the American Academy of Pediatrics' www.healthychildren.org site. Physicians can find regular updates to pediatric care and use the site to refer parents to best practices regarding the care of their infants and children.

Urgent updates to pediatric care guidelines can still be found on Humana – CareSource's provider portal network notifications landing page at <https://www.caresource.com/providers/kentucky/medicaid/provider-materials/updates-and-announcements/>.
