

## PROVIDER PORTAL

The TRICARE Prime® Demo by CareSource Military & Veterans™ Provider Portal is a key self-service tool for our providers and defines how our providers engage with us. Our Provider Portal is a secure, encrypted online tool available for any provider serving our beneficiaries. Providers will need to be registered to use the Provider Portal.

## PROVIDER FEEDBACK

Provider satisfaction with the portal is a key metric that we monitor closely. We have implemented a feedback loop where we elicit provider feedback, gather that feedback into key enhancement themes and then build a thoughtful, enhanced roadmap that delivers new features that our providers find useful. The enhancements are released iteratively throughout the year and target highly requested items. We place satisfaction surveys directly on the portal to capture feedback about your overall experience with completing your daily tasks.

## MEMBER/BENEFICIARY ELIGIBILITY

The portal enables quick access to relevant beneficiary information, such as beneficiary eligibility and enrollment, including a beneficiary's primary language information and any other special communication needs.

By going to Member/Beneficiary Search > Member/Beneficiary Eligibility, providers can search for beneficiary eligibility using one of the search options, or search for multiple beneficiaries at a time. Providers can easily export and print beneficiary data as needed. Providers can also access a beneficiary's case management plan and submit a request to update case management information.

## MEMBER PROFILE

The Member/Beneficiary Profile supports coordinated beneficiary care between the beneficiary's primary care provider (PCP) and other care coordinators by providing access to comprehensive patient medical information in one convenient location. The data in the Member/Beneficiary Profile can be used to offer coordinated, streamlined care for patients.

- Patient demographics
- PCP information
- Prior prescribing information
- Historical diagnoses
- Patient-specific quality metrics (such as mammography screening, A1C value and more)
- Prior hospital admissions
- Emergency room visits
- Specialist visits
- Case management activity

## MEMBERSHIP/BENEFICIARY LIST

The Membership/Beneficiary List allows providers to view the beneficiaries currently assigned to the Providers acting as PCPs and who are related to their Affiliation Number. The list can be sorted by a specific provider related to a group or for the entire group's beneficiary list. Membership lists can be sorted by clicking on a column heading and/or exported in either plain text or comma delimited formats. Access the Membership/Beneficiary List from the Member/Beneficiary Reports left-hand menu.

Alerts that display on the Membership/Beneficiary List remain for 90 days from the triggering event.

Events include:

- **New Assessment.** The beneficiary has a new health risk assessment available for review.
- **New Care Treatment Plan.** The beneficiary has a new care treatment plan that can be reviewed/acknowledged.
- **Updated Care Treatment Plan.** The beneficiary has an updated care treatment plan that can be reviewed/acknowledged.

## CLINICAL PRACTICE REGISTRY

The Clinical Practice Registry (CPR) is an online tool available to health partners to identify and prioritize needed health care services, screening and tests for TRICARE Prime Demo beneficiaries. The CPR is easy to access via the secure Provider Portal on the Member/Beneficiary Reports tab.

- **Identify gaps in care:** View preventive service history and easily identify Healthcare Effectiveness Data and Information Set (HEDIS®) gaps in care to discuss during appointments.
- **Holistically address patient care:** Receive alerts when beneficiaries need tests or screenings, review beneficiary appointment histories and view their prescriptions.
- **Improve clinical outcomes:** Easily sort beneficiaries into actionable groups for population management.
- **Attributed as PCP via Claims:** Indicates the beneficiary is attributed to a provider based on claims data. This type of attribution generally means the beneficiary has attributable claims history and is engaged with this provider or provider group.
- **Attributed as PCP via Self-Selection:** Indicates the beneficiary has selected a PCP for assignment and is attributed to their self-selected provider. This type of attribution generally means the beneficiary has no attributable claims history.
- **Assigned as PCP:** Indicates the beneficiary is attributed to their geographically assigned provider. This type of attribution generally means the beneficiary has no attributable claims history.

## DISPUTE AND APPEAL LETTERS

Providers can easily access Disputes or Post-Service Claim Appeal acknowledgement and decision letters on the Provider Portal from three locations:

- While checking the status of the dispute or appeal
- While viewing the associated claim
- From the Provider Documents page

The Provider Portal allows providers to submit an inpatient or outpatient prior authorization request and receive an automatic approval for over 200 procedure codes. Through the Providers > Prior Authorizations and Notifications page, providers can enter clinical details and receive a decision on the authorization within seconds in addition to an authorization reference number. Cite AutoAuth matches the entered procedure and diagnosis information to the integrated clinical criteria and policies to display for the provider to complete that is required for the authorization to be processed. A determination is then made within seconds and given to the provider based on the selected clinical criteria. If a submitted authorization is pending and requires additional clinical information, providers may use our Provider Portal to update the authorization and attach documentation.
