

Network Notification

Notice Date: November 3, 2017
To: Ohio Medicaid and MyCare Health Partners
From: CareSource®
Subject: Enhanced Ambulatory Patient Groups (EAPG) Billing Methodology
Supersedes CareSource Payment Policies
Effective Date: October 1, 2017

Effective Oct. 1, 2017, CareSource started enforcing the enhanced ambulatory patient groups (EAPG) methodology using Ohio Department of Medicaid (ODM) billing guidelines. CareSource began processing claims using the EAPG methodology for dates of service on or after Oct. 1, 2017. **The EAPG billing methodology will supersede any prior CareSource payment policies.**

Example

Following the guidance of a legacy CareSource vaccine payment policy to submit a claim for the administration fee of the vaccine with a 90471 CPT code would lead to a denial, as the CareSource claims system is configured with EAPG pricing methodology and will deny those claims. Health partners who still submit claims using the 90471 CPT code will receive a denial of the entire claim denied due to non-covered code requirements. The health partner would need to remove the non-covered code 90471 and send a corrected claim with one of the EAPG-covered CPT codes: 90460, 90473 or 90474.
