If you lose your member ID card, you can request a new printed ID card on the My CareSource® member portal, or by calling Member Services. You will get your ID card 7-10 days after we receive your first premium payment.

Common copay and coinsurance amounts are shown on your ID card. The bottom of the card shows the annual deductible for your plan. Review your plan materials when they arrive. Your plan materials will contain your Schedule of Benefits and Evidence of Coverage (your contract with CareSource).

How to **Access Health Care**

Primary Care

Your Primary Care Provider is your main source for routine care. Find a provider and make an appointment as soon as you can.

Not sick? That's ok! Annual wellness checks are **FREE** and help you create a relationship with your Provider. A relationship with your Provider is important for your continued good health, and can help you get future appointments faster!

If you need help finding a provider or making an appointment, Member Services can help.

Specialty Care

There are times when you might need to see a specialist for care.

You do not need to get a referral to see a specialist. However, some care that you receive from a specialist may need a prior authorization. As long as your provider is in network, it is your provider's responsibility to get the prior authorization. To find a specialist, use our ***Find A Doctor*** tool. You can also ask your Primary Care Provider for a referral, but be sure to confirm that they are in the CareSource network.

Mental Health Care (Behavioral Health) and Substance Use Disorder

With the stresses of today's world, mental health is as important as physical health. CareSource offers behavioral health as part of your benefits. You don't need a doctor's referral or prior approval for most outpatient treatment.

Whether it's depression, anxiety, alcohol or drug dependence, we provide treatment and counseling options to help you through difficult times in your life. Below are just a few of the services we provide.

If you need immediate help, dial 988 or call CareSource24. Our nurses are available 24 hours a day, seven days a week. We are here to listen and to help. We can help find you the right provider.

If you have a Care Manager, talk to them about getting help. They can help you find an appointment with the right provider. You can also find these service providers with our ***Find A Doctor*** tool, or you can call Member Services for help getting an appointment.

- Marriage and Family Therapists
- Substance Use Counselors
- Child, Adolescent & Adult Psychiatry
