

# NETWORK *Notification*

**Notice Date:** June 12, 2025  
**To:** Georgia Medicaid Providers  
**From:** CareSource  
**Subject:** Maintaining Accurate Provider Information

---

## Summary

This serves as an important reminder of CareSource's policy, in alignment with the Georgia Department of Community Health (DCH) policy. DCH mandates that provider information be maintained and updated in the Georgia Medicaid Management Information System (GAMMIS), which includes information for delegated providers.

Accurate provider data is crucial for delivering high-quality health care services to our members. Changes such as office relocations, phone number updates, the addition or termination of providers, changes in specialties at a location, and the closure of a location are all significant reasons to notify CareSource via GAMMIS.

## Impact

For Georgia Medicaid providers, please ensure that your information is updated in the Georgia Medicaid Management Information System (GAMMIS). Once updated, this information will be transmitted to CareSource for further updates.

Demographic changes may include but are not limited to:

- Address
- Phone number
- Name change
- Modifying the provider record (accepting new patients, age restrictions, language)
- Adding a location
- Adding/terminating providers
- Changing/adding specialties at a location
- Closing a location

## Questions?

Contact Provider Services at **1-855-202-1058**, available Monday through Friday from 7 a.m. to 7 p.m. Eastern Time (ET). You can also contact your Provider Representative at [GAProviderRelations@CareSource.com](mailto:GAProviderRelations@CareSource.com).
