From:	**HAP CareSource**
Subject:	**2027 SSBCI Provider Attestation Form Updates**
Effective Date:	**January 1, 2027**

Summary

Beginning January 1, 2027, the Centers for Medicare & Medicaid Services (CMS) has changed its requirements that qualify members for the additional Special Supplemental Benefits for the Chronically Ill (SSBCI) benefits.

The primary change is additional documentation to help demonstrate how the requested benefit is expected to maintain or improve the members overall health or functioning (see item 4 below). This verification is required to determine the members' eligibility for healthy food, utility, rent and mortgage assistance, household cleaning, and personal care items.

HAP CareSource MI Coordinated Health has updated the SSBCI Provider Attestation Form to align with the revised CMS guidance and eligibility framework.

Important: If a member is currently qualified in 2026, that does not automatically qualify them for 2027. All requirements must be met before the new 2027 SSBCI benefits can be provided.

Impact

Without the correct documentation, members will not have access to these benefits. The member must meet all four of the CMS requirements below to qualify for SSBCI benefits:

1. Have one or more qualifying chronic health conditions; and
2. Be at risk for hospitalization or serious health complications; and
3. Require intensive care coordination or ongoing support; and
4. **Have a documented health, functional, or social need for the specific SSBCI benefit requested.**

The form is now available on the
