

# NETWORK *Notification*

**Notice Date:** November 15, 2023  
**To:** Ohio MyCare  
**From:** CareSource  
**Subject:** Provider Sourcing Tool

---

## Summary

We have a new option for MyCare Waiver providers to view service opportunities including personal care, adult day services, home delivered meals, home care attendant, supplemental transportation, and home modifications.

For service listings, providers will see the frequency requested along with the preferred days and times. Providers will have the opportunity to express interest in these opportunities and the Case Manager will follow up with the providers that are interested with additional details.

## Impact

The provider sourcing tool will provide opportunities for providers to view open requests and choose opportunities that align with their services and availability.

Providers can expand their business in ways that suit their needs and abilities.

You can access the Provider Sourcing Tool from within the Provider Portal or from the website <https://providersourcing.caresource.com/login>.

- After logging in to the Provider Portal open the provider's tab
- On the left, click on Provider Sourcing.
- When the Provider Sourcing Tool opens, there is a "Take a tour" button, which will demonstrate the functions of provider sourcing tool.

A quick tip sheet can be access via the link below:
