

**Provider Manual Addendum  
Macomb Prepaid Inpatient Health Plan (PIHP)**

HAP CareSource™ MI Health Link is making the following behavioral health change for our members, effective January 1, 2025.

HAP CareSource MI Health Link members who live in Macomb County and are currently receiving behavioral health services from Macomb County Community Mental Health (MCCMH) will now have their behavioral health services coordinated by HAP CareSource MI Health Link instead of MCCMH. Member benefits remain the same, the only change taking place is who manages these benefits.

Authorizations and coordination of these benefits are provided by HAP CareSource MI Health Link for members who live within Macomb County. Authorizations should be submitted per the guidance outlined in the Referrals and Authorizations section of this [manual](#). This section includes information on submitting a Prior Authorization Request.

If you have any referral or prior authorization questions, please call our Utilization Management department at **1-833-230-2159**.

For all other questions, please call Provider Services at **1-833-230-2159**.
