Prescriber Information

Name: _____ NPI/DEA: _____ Specialty: _____

Address: _____

Office Contact: _____ Phone: _____ Fax: _____

Diagnosis & Required Information

☐ Diagnosis Code (ICD-10): _____

☐ Prescriber attests to reviewing state prescription drug monitoring program (PDMP) prior to writing prescription. Date: _____

☐ Prescriber attests benefits and risks of opioid therapy have been discussed with patient.

☐ Prescriber attests to a documented patient-specific treatment plan (e.g., assessment of pain and function scores, a baseline urine drug test, plans for random urine drug screens, opioid contract, etc.)

☐ Prescriber attests to periodic assessment of patient's outcomes (e.g., adherence, progress notes documenting pain and function scores, random urine drug screens, no serious adverse outcomes) to ensure that continued therapy outweighs risk to patient safety.

☐ Prescriber attests to reassessment of patient's addiction risk or mental health concerns (e.g., using Screening, Brief Intervention, and Referral to Treatment [SBIRT] tools), including referral to an addiction medicine specialist when appropriate.

☐ If the patient is taking a benzodiazepine, prescriber affirms to assessment to ensure benefit outweighs the risk of benzodiazepine use along with the opioid analgesic.

☐ If patient's cumulative dose of opioids is above 80 MED per day, prescriber must be a pain specialist or must attest to consulting a pain specialist. If pain specialist is unavailable, provide documentation supporting so and rationale for higher dose.

☐ Prescriber attests member has tried and failed at least two preferred non-opioid analgesics (NSAIDs, APAP, anticonvulsants, antidepressants) at maximally tolerated doses unless all contraindicated. Please list drugs that have been tried and/or explanation of

Medication Name	Date Started	Trial Length	Reason For Discontinuation/ Contraindication
