

Notice Date: February 26, 2025
To: Indiana Marketplace Providers
From: CareSource
Subject: Free CMEs- HPV Vaccination Best Practices- On- Demand Trainings

Summary

Check out the 2024 Human Papillomavirus (HPV) Provider Series with free Continued Medical Education (CME) created by the American Cancer Society, National HPV Vaccination Roundtable, and Indiana Immunization Coalition!

Importance

The provider HPV Vaccination Best Practice four-part series will delve into key interventions, best practices, highlight health systems and provide strategies to increase HPV vaccination within your practice! CME, continuing nursing education (CNE) and pharmacy continuing education are offered for each webinar. As healthcare professionals and advocates, we understand the critical importance of staying informed about preventive measures and the latest information.

What to Expect

The series features comprehensive information with renowned experts and their valuable contributions to the field of HPV. Speakers will discuss HPV vaccine improvement interventions targeted for patients and parents. They will emphasize resources for back-to-school initiatives and tools for increasing HPV vaccination.

Speakers include:

- Marcy Solomon Baker, MD, Tampa, FL
- Liliana Cueva, PA, Immigration services attorney, Coral Gables, FL
- Kori Pitt, MPH, Oncology Program Manager, Reno, NV
