

Network Notification

Notice Date: May 8, 2019
To: Indiana Providers
From: CareSource®
Subject: Applied Behavior Analysis (ABA) Rate Setting
Effective Date: July 1, 2019

Summary

In an effort to standardize reimbursement to our providers, CareSource has established a rate for applied behavior analysis (ABA) services for Indiana Marketplace, Healthy Indiana Plan (HIP) and Hoosier Healthwise (HHW) plans. HIP and HHW plans will reimburse the same amount for this service; however, Marketplace will have an adjusted fee schedule.

Impact

Rates will be effective for dates of service (DOS) July 1, 2019.

As a reminder, Medicaid authorizations approved prior to Jan. 1, 2019 may still be used and billed with the 2018 codes published by Indiana Medicaid until June 30, 2019. Authorizations requested on or after Jan. 1, 2019 should use the 2019 codes.

Fee Schedule (For ABA Services)

**T-codes are specific to ABA services. The 9-series code could be used for other types of services. The codes are included within our provider agreement attached to provider records once credentialed and entered into the system with an ABA specialty. The codes require an appropriate autism-related diagnosis code in addition to an authorization for the ABA services.*
