CONVENIENCE CARE CLINICS GIVE YOU EASY ACCESS TO CARE

You can visit a convenience care clinic for care when you have an issue and can't get in to see your Primary Care Provider (PCP) quickly. Convenience care clinics, also known as retail health clinics, are open when your PCP's office may be closed. You can find convenience care clinics in local grocery and drug stores where you may already shop, such as CVS or Walgreens. You can get care for common health issues such as:

- Sinus Infections
- Coughs/Colds/Flu
- Rashes
- Allergies
- And more

You can find these network providers through our ***Find a Doctor/Provider*** online search tool. Please ask the provider at the clinic to send a record of your visit to your PCP. This helps your PCP stay informed of your health care needs to better guide your care.

FOLLOW UP AFTER A MENTAL HEALTH HOSPITAL STAY

Have you had a hospital stay for a mental health issue? If so, follow-up care will help you get the continued support you need. Be sure to have a follow-up visit **within seven days** of your hospital stay.

Talk to your mental health care provider during this visit. You can discuss:

- Current and future treatments
- Any medication side effects
- Problems with getting medications or treatment
- Filling your prescriptions
- Making a safety plan
- Community support
- Self-care tools
- Who to call if you start to feel bad again

If you need help, contact your Care Manager or call Member Services. The number is on your member ID card.

PROTECT YOUR PERSONAL INFORMATION

Health insurance fraud is a serious issue. You can help combat it. Keep these tips in mind.

- Use caution when giving out your personal information. This includes your member ID and social security number.
- Never let anyone else use your ID card. This could put you at risk for identity theft. It is also illegal.

If you think someone has used your ID card, let us know right away. You can call Member Services at the number on your ID card or on the back of this newsletter. Follow the prompts to report fraud. You can choose to remain anonymous. Your report will stay confidential to the extent allowed by law.

Drug List Updates

CareSource has a searchable drug list on our website. It can help you find out which drugs are covered. Use the Find My Prescriptions link under Quick Links to find the medicines covered under your plan.

Quarterly changes and updates to the list are online, too. Just go to this link:

[CareSource.com/members/indiana/marketplace/my-pharmacy/drugformulary](https://www.caresource.com/members/indiana/marketplace/my-pharmacy/drugformulary)

If you don't have access to the internet, please call Member Services. The number is on your member ID card. We will help you.

OPEN ENROLLMENT IS NOVEMBER 1 – DECEMBER 15, 2017

As a reminder, Open Enrollment for 2018 Marketplace will be only 6 weeks long, running from November 1 through December 15, 2017. Look for your renewal letter in the mail in late October. It is important that you take the time to understand your 2018 plan, have time to review other CareSource plan options, and to comparison shop if you choose.

CARE FOR MOMS AND BABIES

Are you thinking about getting pregnant? Expecting a baby soon? Already a mom? Here are some tips to help you and your baby stay healthy.

Before you are pregnant

- If you think you might be pregnant, don't wait. Call your doctor right away to schedule a visit.

While you are pregnant

- Your doctor will schedule many checkups for you over the course of your pregnancy. Don't miss any. They are all important.
- Follow your doctor's advice. Ask questions if you are not sure what to do. Your doctor and our nurse advice line are here to help.
- Don't smoke. If you do, try to quit. Smoking can cause serious harm to you and your baby. We can help you find a path to success. You can:
 - ✓ Get stop-smoking tips and resources at the MyHealth link on your My CareSource account.
 - ✓ Get coaching through our Tobacco Free program. Access this through the MyHealth link, too.

After the baby is born

- Schedule a postpartum (after birth) visit to see your doctor. You should go **between three and eight weeks after you deliver**. This visit helps make sure you are recovering well. It gives you a chance to ask your doctor any questions you may have.
- Take your baby to the doctor for well-child exams. See details in this newsletter.

Know How to Recognize Psychosis

Psychosis is a mental health condition. It includes some loss of contact with reality. Symptoms include changes in thinking and mood. Some examples are:

- Confused thinking
- False beliefs
- Hallucinations
- Changed feelings
- Changed behaviors

Symptoms can be scary or confusing, but you can get help. There is treatment for psychosis. No one needs to suffer alone.

Seek help early. Talk to your doctor.

Reach out for help the first time symptoms appear. If left untreated, it may disrupt relationships, work or school. It can also increase the risk for:

- Depression
- Suicide
- Substance use

SCHEDULE A WELL-CHILD EXAM TODAY

Children need to see the doctor even when they are not sick or hurt. These visits are called well-child exams. They help make sure your child stays as healthy as possible. CareSource covers the exams at no cost to you.

These exams may include:

- Immunizations
- Height and weight check
- Lead screening
- Developmental screening (how your child plays, learns, speaks, acts and moves)
- Referral for preventive dental care, if needed
- Illness and injury prevention
- And more

Ask your doctor how often your child should get an exam.

IF YOU DON'T HAVE INTERNET ACCESS, DON'T WORRY. WE CAN STILL HELP YOU. CALL MEMBER SERVICES WITH YOUR QUESTIONS.
