## Member Eligibility

[Edit](#)

Health care providers should always verify member eligibility before rendering services, except in an emergency.

It is important  
one of the fo

Verify that CareSource members are eligible for care on the date of service  
Verify eligibility status prior to rendering services (exception: emergency)

### Uploading

If you need to upload a member's consent form for abortion, hysterectomy, or sterilization, first check the member's eligibility for the appropriate date of service, and then scroll to the Upload Consent Form option on this page to upload the consent form.

Corrected claim forms are not necessary when submitting documentation on the Portal.

[How to Upload Consent Form](#)

**NOTE:** If you are submitting documentation for a claim and do not indicate the specific claim number for which the documentation applies, the documentation **will apply only to claims received after the receipt date of the consent form**. For example, a consent form uploaded on 1/6/2020 will systematically apply to claims received by CareSource on or after 1/6/2020. It will not apply to claims received prior to 1/6/2020.

To upload a consent form applicable to a **previously submitted claim**, you must enter the corresponding claim number when submitting the attachment to ensure systematic alignment.

## Member Eligibility

[Edit](#)

Health care providers should always verify member eligibility before rendering services, except in an emergency.

It is important to verify that CareSource members are eligible for care on the date of service; therefore, the date of service is required to conduct a search. This helps prevent unpaid claims. Please select one of the following search methods and enter the requested information. Then select "Search." You can verify eligibility for dates of service up to 24 months ago.

## Uploading Consent Forms

If you need to upload a member's consent form for abortion, hysterectomy, or sterilization, first check the member's eligibility for the appropriate date of service, and then scroll to the Upload Consent Form option on this page to upload the consent form.

Corrected claim forms are not necessary when submitting documentation on the Portal.

# Clinical Practice Registry

Clinical Practice Registry

[Edit](#)

Our goal in providing the CareSource Clinical Practice Registry is to provide actionable preventive health service data for CareSource members. The information provided is intended to encourage practices to contact members for preventive visits, flag charts for needed services or to simply create awareness of the member's need for an intervention.
