INTRODUCTION

Prescription Drug List (Formulary)

The CareSource Prescription Drug List (or Formulary) is here to help you know what drugs will be covered by your pharmacy benefit. The Formulary tells you what tier covered drugs fall into and what additional restrictions apply (if any). The drugs included on the Formulary are the most cost-effective drugs covered by your plan.

The Formulary is not a complete list of drugs that may be covered for you through your pharmacy benefit. For more information about requesting drugs that are not on the Formulary, refer to your Evidence of Coverage (EOC).

The Formulary includes both brand-name and generic drugs. Generic drugs have the same active ingredient as their brand-name drug. To be approved by the FDA, generic drugs must be just as safe and effective as the brand name. Generic drugs are also usually lower cost than their brand-name drug, so using generic drugs when they are available is a good way to save money. If a brand-name drug is on the formulary when a generic for it becomes available, we will automatically substitute the generic.

Decisions about our Formulary are made by a committee of physicians and pharmacists known as the Pharmacy & Therapeutics (P&T) Committee. You can find more information about the P&T Committee in your EOC. The P&T Committee updates the Formulary every quarter. You can also find up-to-date Formulary information through the Price A Medication tool on CareSource.com. A list of Formulary changes is also available on CareSource.com. You will be notified by mail if a Formulary change affects a drug you have taken.

Document Key

DRUG TIERS	
Tier 0 – ACA	These drugs, such as contraceptives, aspirin, or smoking cessation products, are used to prevent a disease or condition. They are covered at \$0 for certain individuals who qualify based on federal recommendations.
Tier 1- Generics	This tier includes the lowest cost drugs. Tier 1 includes mostly generic drugs.
Tier 2- Preferred Brand	This tier includes drugs that are higher cost than those in tier 1. Tier 2 includes many preferred brand-name drugs and some higher-cost generic drugs.
Tier 3- Non-Preferred Brand & Non-preferred Generics	This tier includes high-cost drugs. The cost for these drugs is higher than for those in tier 1 or tier 2. Tier 3 includes non-preferred brand-name and generic drugs.

Tier 4-Specialty	This tier includes the highest cost drugs. They may cost more than drugs on lower tiers that are used to treat the same condition. Specialty drugs will need to be filled through a specialty pharmacy.
ABBREVIATIONS	
ACA	Affordable Care Act- A healthcare reform law with the goal of making affordable health insurance available to more people.
AL	Age Limit - An Age Limit will stop a drug from being covered if you are over or under a certain age. We may put an Age Limit on a drug if a drug is not approved by the FDA for some ages or if a dosage form is not the best choice for some ages.
OTC	Over-the-counter - These drugs/products may be purchased without a prescription. Please note that a prescription may be required in order to process the drug through your pharmacy benefit unless otherwise allowed by state or federal law.
PA	Prior Authorization - If a drug has a Prior Authorization limit, we need more information before the drug will be covered for you. Your Provider will need to give us this information electronically or fax it to us. The forms they can use are on our website.
QL	Quantity Limit - A Quantity Limit will usually limit how much of the drug you can get at a time. It may also set a limit for how much of the drug you can get over a timeframe like a month or a year. We will put a Quantity Limit on a drug to make sure it is being used at doses that the Federal Food and Drug Administration (FDA) has approved.
ST	Step Therapy - If a drug has a Step Therapy limit, you will need to try another drug first. We will ask you to try another drug first if the drug is more affordable and works just as well for most people.

Pharmacy Network

Your Prescription Drug Benefit only covers prescriptions that are filled at a Network Pharmacy. Some prescriptions must be filled at a specialty pharmacy. Sometimes a drug manufacturer will only make their drug available through certain pharmacies. These are known as Limited Distribution drugs. You can use the ***Find A Pharmacy*** tool on **CareSource.com** to find a Network Pharmacy. You can also call member services at the number on your ID card to get help finding a Network Pharmacy.

If you take a medication on an ongoing basis, you may want to have your prescriptions delivered by our Mail Order Pharmacy. We work with Express Scripts Pharmacy to deliver prescription drugs directly to your home. You are not required to use the Mail Order Pharmacy; however, if you are interested in getting your prescriptions by mail order, you can get more information on **CareSource.com** or by calling Express Scripts Pharmacy at 1-888-848-4452.
