Applied Behavior Analysis for Autism Spectrum Disorder-MP-AD-1223	IN, GA, WV, KY: 11/01/2022-05/31/2024 OH: 12/01/2022-05/31/2024
Policy Type	
ADMINISTRATIVE	

Administrative Policy Statement prepared by CareSource and its affiliates are derived from literature based on and supported by clinical guidelines, nationally recognized utilization and technology assessment guidelines, other medical management industry standards, and published MCO clinical policy guidelines. Medically necessary services include, but are not limited to, those health care services or supplies that are proper and necessary for the diagnosis or treatment of disease, illness, or injury and without which the patient can be expected to suffer prolonged, increased or new morbidity, impairment of function, dysfunction of a body organ or part, or significant pain and discomfort. These services meet the standards of good medical practice in the local area, are the lowest cost alternative, and are not provided mainly for the convenience of the member or provider. Medically necessary services also include those services defined in any Evidence of Coverage documents, Medical Policy Statements, Provider Manuals, Member Handbooks, and/or other policies and procedures.

Administrative Policy Statements prepared by CareSource and its affiliates do not ensure an authorization or payment of services. Please refer to the plan contract (often referred to as the Evidence of Coverage) for the service(s) referenced in the Administrative Policy Statement. If there is a conflict between the Administrative Policy Statement and the plan contract (i.e., Evidence of Coverage), then the plan contract (i.e., Evidence of Coverage) will be the controlling document used to make the determination.

According to the rules of Mental Health Parity Addiction Equity Act (MHPAEA), coverage for the diagnosis and treatment of a behavioral health disorder will not be subject to any limitations that are less favorable than the limitations that apply to medical conditions as covered under this policy.

This policy applies to the following Marketplace(s):

A. Subject

Applied Behavior Analysis Therapy for Autism Spectrum Disorder

B. Background

Autism Spectrum Disorder (ASD) can vary widely in severity and symptoms depending on the developmental level and chronological age of the patient. ASD is often defined by specific impairments that affect socialization, communication, and stereotyped (repetitive) behavior. Children with autism spectrum disorders have pervasive clinically significant deficits which are present in early childhood in areas such as intellectual functioning, language, social communication and interactions, as well as restricted, repetitive patterns of behavior, interests and activities.

There is currently no cure for ASD, nor is there any one single treatment for the disorder. Individuals with ASD may be managed through a combination of therapies, including behavioral, cognitive, pharmacological, and educational interventions. The goal of treatment for members with ASD is to minimize the severity of ASD symptoms, maximize learning, facilitate social integration, and improve quality of life for both the members and families and/or caregivers.

C. Definitions

- **Autism Spectrum Disorder - (ASD)** Any of the following pervasive developmental disorders as defined by the most recent version of the *Diagnostic and Statistical Manual of Mental Disorders* (American Psychiatric Association): Autism; Asperger's Disorder; or other condition that is specifically categorized as a pervasive developmental disorder in the *Manual*.
- **Applied Behavior Analysis - (ABA)** A preventive service for ASD.
- **Board Certified Assistant Behavior Analyst (BCABA)** – A professional provider of applied behavioral analysis services who has obtained an undergraduate-level certification.
- **BCBA** - BACB certified behavior analyst graduate level.
- **BCBA-D** - BACB certified behavior analyst doctoral level.
- **RBT** - BACB Registered Behavioral Technician.
- **Supervision** - All supervisory activities as well as supervisor and supervisee responsibilities will be in accordance with the board from which the practitioner received a license.
 - Services delivered by a RBT must be supervised by a qualified RBT supervisor.
 - Services delivered by a BCaBA must be supervised by a BCBA, BCBA-D or a licensed/ registered psychologist certified by the American Board of Professional Psychology in Behavioral and Cognitive Psychology who has tested in ABA.
 - A registered behavior technician (RBT), certified by the national behavior analyst certification board (BACB), may provide ABA under the supervision of an independent practitioner. In order to provide services, they have to enroll in the Marketplace program and affiliate with the organization under which they are employed or contracted.

- **RBT Supervision** - Ongoing supervision must be at a minimum of 5% of the hours spent providing behavior-analytic services per month¹. This includes a minimum of 2 face-to-face contacts per month.

D. Policy

- I. Medical necessity review is required for all ABA services:
 - A. At baseline, then again every 6 months thereafter or sooner if clinically necessary.
 - B. Medical review documentation must be submitted with appropriate documentation as indicated in the medical policy.
- II. An ASD diagnosis is required in order for services to be reviewed for approval.
- III. Limitations
 - A. A Medically Unlikely Edit (MUE) for a CPT code is the maximum units of service that a provider can report for one member on one date of service.
 1. Maximum units allowed per CPT:

CPT	Max unit allowed
97151	32
97152	16
97153	32
97154	18
97155	24
97156	16
97157	16
97158	16
0362T	16
0373T	32

NOTE: If CMS updates the MUE list (Medicaid table), which generally occurs on a quarterly basis, the update will take precedence over the MUEs in this policy.

- B. Each RBT must obtain ongoing supervision for a minimum of 5% of the hours spent providing behavior-analytic services per month.
- C. The treatment codes are based on daily total units of service in 15-minute increments. A unit of time is attained when the mid-point is passed.
 1. Time interval examples:

Units	Number of minutes
1 unit	≥8 minutes through 22 minutes
2 units	≥23 minutes through 37 minutes
3 units	≥38 minutes through 52 minutes

¹ www.bacb.com

4 units	≥53 minutes through 67 minutes
5 units	≥68 minutes through 82 minutes
6 units	≥83 minutes through 97 minutes
7 units	≥98 minutes through 112 minutes
8 units	≥113 minutes through 127 minutes

E. Conditions of Coverage

Payments may be subject to limitations and/or qualifications and will be determined when the claim is received for processing. Reimbursement is dependent on, but not limited to, submitting approved HCPCS and CPT codes along with appropriate modifiers.

Program Integrity will be engaged for an annual review of data.
