Policy Name		Policy Number	Effective Date
Transcutaneous Electrical Nerve Stimulation (TENS)		PY-0750	08/01/2019
Policy Type			
Medical	Administrative	Pharmacy	REIMBURSEMENT

Reimbursement Policy Statement: Reimbursement Policies prepared by CSMG Co. and its affiliates (including CareSource) are intended to provide a general reference regarding billing, coding and documentation guidelines. Coding methodology, regulatory requirements, industry-standard claims editing logic, benefits design and other factors are considered in developing Reimbursement Policies.

In addition to this Policy, Reimbursement of services is subject to member benefits and eligibility on the date of service, medical necessity, adherence to plan policies and procedures, claims editing logic, provider contractual agreement, and applicable referral, authorization, notification and utilization management guidelines. Medically necessary services include, but are not limited to, those health care services or supplies that are proper and necessary for the diagnosis or treatment of disease, illness, or injury and without which the patient can be expected to suffer prolonged, increased or new morbidity, impairment of function, dysfunction of a body organ or part, or significant pain and discomfort. These services meet the standards of good medical practice in the local area, are the lowest cost alternative, and are not provided mainly for the convenience of the member or provider. Medically necessary services also include those services defined in any federal or state coverage mandate, Evidence of Coverage documents, Medical Policy Statements, Provider Manuals, Member Handbooks, and/or other policies and procedures.

This Policy does not ensure an authorization or Reimbursement of services. Please refer to the plan contract (often referred to as the Evidence of Coverage) for the service(s) referenced herein. If there is a conflict between this Policy and the plan contract (i.e., Evidence of Coverage), then the plan contract (i.e., Evidence of Coverage) will be the controlling document used to make the determination.

CSMG Co. and its affiliates may use reasonable discretion in interpreting and applying this Policy to services provided in a particular case and may modify this Policy at any time.

A. Subject

Transcutaneous Electrical Nerve Stimulation (TENS)

B. Background

Reimbursement policies are designed to assist you when submitting claims to CareSource. They are routinely updated to promote accurate coding and policy clarification. These proprietary policies are not a guarantee of payment. Reimbursement for claims may be subject to limitations and/or qualifications. Reimbursement will be established based upon a review of the actual services provided to a member and will be determined when the claim is received for processing. Health care providers and their office staff are encouraged to use self-service channels to verify member's eligibility.

It is the responsibility of the submitting provider to submit the most accurate and appropriate CPT/HCPCS code(s) for the product or service that is being provided. The inclusion of a code in this policy does not imply any right to reimbursement or guarantee claims payment.

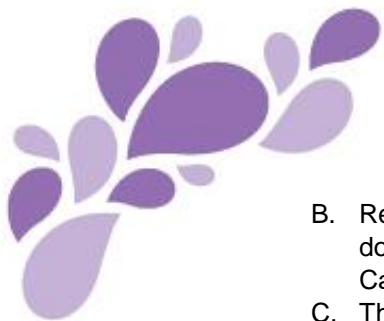

Transcutaneous electrical nerve stimulation (TENS) is a device that produces a mild electrical stimulation that causes interference with transmission of painful stimuli. The stimulation is applied to the member's painful area via electrodes applied to the member's skin. CareSource will reimburse licensed suppliers for the rental or purchase of TENS units and supplies when medically necessary. To be eligible for coverage, TENS units must be issued and used within the limits of this policy.

C. Definitions

- **Transcutaneous electrical nerve stimulation (TENS)** - is the application of mild electrical stimulation, to skin electrodes placed over a painful area that causes interference with transmission of painful stimuli.
- **Supplies** – are disposable items that are not reusable and must be replaced on a frequent basis. They are used to serve a medical purpose for the treatment of a medical condition.

D. Policy

- I. CareSource does not require a prior authorization (PA) for a TENS unit or supplies for participating providers.
 - A. Non-participating providers DO require a prior authorization for a TENS unit (E0720 or E0730).
 - B. Non-participating providers DO NOT require a prior authorization for supplies (A4595).
- II. CareSource reimburses for TENS units and supplies according to the Indiana Administrative Code 405 IAC 5-19-2.
- III. TENS units are reimbursed on a 10 month rent to purchase.
- IV. If a claim submitted for a TENS unit (E0720 or E0730) and does not include a modifier, or includes an incorrect or inappropriate modifier, the claim will be denied.
- V. Documentation
 - A. The provider of the TENS unit must complete the "IHCP Medical Clearance Form for TENS Unit" attesting to the medical necessity of the device, which must be available for review upon CareSource's request.

- B. Regarding a TENS unit that was not originally reimbursed by CareSource, documentation to confirm medical necessity must be available for review upon CareSource's request, before reimbursement is made for supplies or repair.
- C. The provider must also provide the member with verbal instruction on the use of the TENS unit.
- D. The provider must maintain written documentation regarding the member's instruction on the use of the TENS unit in the member's medical record.

VI. Supplies

- A. Once the member's TENS unit has converted to a purchase, CareSource covers only 1 unit of supplies (A4595) per month for a 2-Lead TENS unit (E0720) or 2 units per month for a 4-Lead TENS unit (E0730).
- B. After a TENS unit has been purchased for a member, regardless of payment source:
 - 1. Separate payment may be made for necessary supplies, which must be dispensed only when they are needed, at a frequency not to exceed once per month.

E. Conditions of Coverage

Reimbursement is dependent on, but not limited to, submitting Indiana Medicaid approved HCPCS codes along with appropriate modifiers, if applicable. Please refer to the Indiana Medicaid fee schedule for appropriate codes.

- **The following list(s) of codes is provided as a reference. This list may not be all inclusive and is subject to updates.**

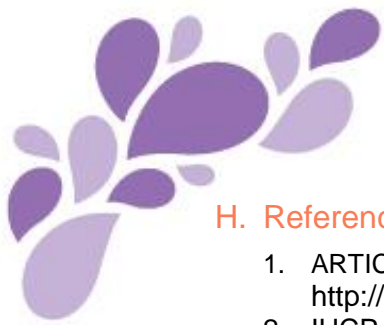

HCPCS Code	Description
E0720	TENS unit, 2-lead, localized stimulation (INCLUDES SUPPLIES DURING RENTAL) - All TENS units must include a battery charger and battery pack.
E0730	TENS unit, 4 lead large area/multiple nerve stimulation (INCLUDES SUPPLIES DURING RENTAL) - All TENS units must include a battery charger and battery pack.
A4595	TENS supplies, for 2 or 4 lead (FOR A RECIPIENT-OWNED UNIT)
Modifiers	Description
RR	Rental (use the 'RR' modifier when DME is to be rented)
NU	Purchase of new equipment
