### Ohio Medicaid

Policy Name & Number	Date Effective
Positive Airway Pressure Devices for Pulmonary Disorders Continued Rental-OH MCD-MM-1019	01/01/2025-11/30/2025
Policy Type	
MEDICAL	

Medical Policy Statement prepared by CareSource and its affiliates are derived from literature based on and supported by clinical guidelines, nationally recognized utilization and technology assessment guidelines, other medical management industry standards, and published MCO clinical policy guidelines. Medically necessary services include, but are not limited to, those health care services or supplies that are proper and necessary for the diagnosis or treatment of disease, illness, or injury and without which the patient can be expected to suffer prolonged, increased or new morbidity, impairment of function, dysfunction of a body organ or part, or significant pain and discomfort. These services meet the standards of good medical practice in the local area, are the lowest cost alternative, and are not provided mainly for the convenience of the member or provider. Medically necessary services also include those services defined in any Evidence of Coverage documents, Medical Policy Statements, Provider Manuals, Member Handbooks, and/or other policies and procedures.

Medical Policy Statements prepared by CareSource and its affiliates do not ensure an authorization or payment of services. Please refer to the plan contract (often referred to as the Evidence of Coverage) for the service(s) referenced in the Medical Policy Statement. If there is a conflict between the Medical Policy Statement and the plan contract (i.e., Evidence of Coverage), then the plan contract (i.e., Evidence of Coverage) will be the controlling document used to make the determination. According to the rules of Mental Health Parity Addiction Equity Act (MHPAEA), coverage for the diagnosis and treatment of a behavioral health disorder will not be subject to any limitations that are less favorable than the limitations that apply to medical conditions as covered under this policy.

A. Subject

**Positive Airway Pressure Devices for Pulmonary Disorders Continued Rental**

B. Background

Positive airway pressure (PAP) devices utilize a machine with a mask or other apparatus that fits over the nose and/or mouth to provide positive pressure, keeping airways open. Continuous positive airway pressure, or CPAP, is used to treat sleep-related breathing disorders, including sleep apnea. It also may be used to treat preterm infants who have underdeveloped lungs. Bi-level or two-level positive airway pressure, or BiPAP, is used to treat lung disorders, such as chronic obstructive pulmonary disease (COPD). While CPAP delivers a single pressure, BiPAP delivers positive pressure both on inhalation and exhalation. PAP devices can provide better sleep quality, reduce or eliminate snoring, and lessen daytime sleepiness. PAP devices should always be used according to the physician's order, as well as every time during sleep at home, while traveling, and during naps in order to produce the most effective outcome.

C. Definitions

- **Adherence** – Use of the PAP device as prescribed by the ordering physician, defined as utilization for 4 or more hours per night for 70% of the nights during the most recent consecutive 30-day period during the first initial usage.
- **Bi-Level Positive Airway Pressure (BiPAP) Device** – A device that uses mild bi-level or two levels of air pressure to keep airways open.
- **Continuous Positive Airway Pressure (CPAP) Device** – A device that uses mild continuous air pressure to keep airways open.
- **Positive Airway Pressure (PAP) Device** – A device that uses air pressure to keep airways open, including both continuous positive airway pressure (CPAP) devices and bi-level positive airway pressure (BiPAP) devices.

D. Policy

I. PAP devices addressed in this policy are as follows:

- A. E0601 – CPAP, continuous pressure capability, used with noninvasive nasal or face mask. This item is a rent to purchase.
- B. E0470 – BiPAP, Bi-level pressure capability, without backup rate feature, used with noninvasive nasal or face mask. This item is a rent to purchase.
- C. E0471 – BiPAP, Bi-level pressure capability, with backup rate feature, used with noninvasive nasal or face mask. This item is a rental only.
- D. E0472 – BiPAP, Bi-level pressure capability, with backup rate feature, used with invasive tracheostomy tube. This item is a rental only.

II. PAP devices CPAP (E0601) and BiPAP (E0470):

- A. Initial prior authorization review: PAP devices CPAP (E0601) and BiPAP (E0470):
  - 1. During the first 3 months rental for a CPAP (E0601) or BiPAP (E0470) positive airway pressure (PAP) device, CareSource considers the device

The MEDICAL Policy Statement detailed above has received due consideration as defined in the MEDICAL Policy Statement Policy and is approved.

medically necessary when Ohio Administrative Code clinical criteria are met.

B. Continued rent to purchase period

1. For months 4-10 rental for a CPAP (E0601) or BiPAP (E0470) positive airway pressure (PAP) device documentation confirming adherence (see above definition) must be submitted.

**Note:** CPAP (E0601) and BiPAP (E0470) machines are a 10-month rent to purchase.

III. PAP devices BiPAP (E0471) and BiPAP (E0472) CareSource uses MCG Health and/or OAC clinical criteria to determine medical necessity

- A. During the first 6 months rental, CareSource considers the device medically necessary when the MCG Health clinical criteria are met.
- B. For months 7-12 rental, CareSource considers the device medically necessary when documentation confirming adherence (see above definition) is submitted.
- C. Documentation confirming adherence must be submitted annually with the prior authorization request. CareSource considers the device medically necessary when BOTH the following are met:
  1. The MCG Health clinical criteria are met.
  2. Documentation confirming adherence (see above definition) is submitted.

E. Conditions of Coverage  
NA

F. Related Policies/Rules  
Noninvasive Home Mechanical Ventilation

G. Review/Revision History

DATE		ACTION
<b>Date Issued</b>	06/10/2020	New policy
<b>Date Revised</b>	03/31/2021	Revised medical necessity criteria language. Added definitions. Clarified types of PAP devices.
	05/11/2022	No changes. Updated references. Approved at PGC.
	03/15/2023	Added Ohio Administrative Code language. Updated references. Approved at Committee.
	02/28/2024	Annual review. Removed MCG from initial review and supply chain statement. Updated references. Approved at Committee.
	08/28/2024	Revised D. II. and III. Updated references. Approved at Committee.
<b>Date Effective</b>	01/01/2025	
<b>Date Archived</b>	11/30/2025	This Policy is no longer active and has been archived. Please note that there could be other Policies that may have some of the same rules incorporated and CareSource reserves the right to follow CMS/State/NCCI guidelines without a formal documented Policy.

The MEDICAL Policy Statement detailed above has received due consideration as defined in the MEDICAL Policy Statement Policy and is approved.
