

## 2024 CareSource Prior Authorization List

CareSource Dual Advantage™ (HMO D-SNP)

Some health care services require your provider to get approval from CareSource before you can get the service. This is called prior authorization. We do this to make sure the care you get is appropriate and necessary. Your provider must get prior authorization for you to receive the services listed below. **Emergency care does not need prior authorization.**

CareSource works with certain doctors and providers to get you care. We call these in-network providers. To have your health care services covered by CareSource, you must go to an in-network provider. If your provider is **not** part of the CareSource network, you or the provider must get prior authorization or approval before you get **any service**, not just the ones listed below. If you don't do this, you may not get reimbursed. Exceptions include emergency services.

Services must meet the terms and conditions of your plan including, but not limited to, eligibility, medical necessity, coverage restrictions, and benefit limitations.

### Services That Require Prior Authorization or Approval

- All Medical Inpatient Care including
  - Acute
  - Skilled nursing facility
  - Inpatient rehabilitation/therapy
  - Long term and respite care
  - Inpatient hospice
