

New for 2021 – Medicare Select Care Tier (Tier 6)

Drugs in the Select Care tier (Tier 6) have a **\$0** copay for up to a 90-day supply in the Initial Coverage stage. This includes a select number of medications used to treat high blood pressure, diabetes and high cholesterol. Your primary care provider (PCP) might prescribe them to help manage your long-term health conditions. Taking your medications as directed by your PCP can help you stay healthy and avoid going to the hospital!

Cost-sharing may change depending on the pharmacy you choose, days' supply and when you enter another phase of the Part D benefit. For more information on the additional pharmacy specific cost-sharing and the phases of the benefit, call the Member Services phone number on the back of your CareSource member ID card.

You can order up to a 90-day supply via mail order to be delivered to your home or by visiting a preferred network pharmacy of your choice. Use the list below to see if you are already taking a Select Care tier drug.
