

HAP CareSource Formulary Drug List

Your Drug Coverage

Your HAP CareSource plan covers drugs. There are no copays for covered drugs. You must use a pharmacy in the network to fill your prescriptions. You can find a pharmacy near you by searching our website.

We cover drugs on a list called the preferred drug list or Common Formulary. A formulary is a list of covered drugs. If you want to look at the drugs on the formulary, or search for a certain drug, you can search the list. It includes drugs from a pharmacy, not drugs from your doctor's office or the hospital. The list includes prescription drugs and covered over-the-counter drugs. We also cover all drugs to help you stop smoking. You can search the list by brand name or generic name.

HAP CareSource works with the state and other health plans to develop and update the list. We update it at least four times a year. We add new drugs and sometimes change the status of drugs. We make changes to the list to meet the state's rules.

When we make a change, we update the website so it's available for you, providers and our Member Services team. If we make a change to the drug list that affects you, we'll send a letter to you and your doctor. This gives you time to talk to your doctor about the change.

Go here to find the drug list: [CareSource.com/MIMedicaidFormulary](https://www.caresource.com/MIMedicaidFormulary)

Drug Coverage Information

Formulary list and restrictions

We cover up to a one-month supply for most medications, or less, if your doctor prescribes less. We cover up to a 12-month supply of birth control drugs. We also cover a three-month supply for many drugs that are taken every day. This includes drugs to treat diabetes, asthma, high blood pressure, cholesterol and other conditions.

For safety reasons, you must use a certain amount of your medication before you can fill it again.

We cover both brand and generics. Sometimes, we only cover the brand. Other times, we cover the generic. Your pharmacy will give you the drug that is covered. Some drugs need approval before we'll cover them. Prior authorization may be required when:

- A drug has step therapy, which means you must try certain drugs before another drug is covered.
- We need certain medical information from your doctor to make sure the drug is appropriate for treatment. For example, we might need diagnosis information, lab test results and history of medications.
- A drug is on the list but there are other drugs that are preferred.
- When the generic drug is covered, but the brand name drug is needed instead for a medical reason. For example, you're allergic to a certain dye/color in the medication. These situations are rare.

Some drugs have age restrictions or quantity limits. These are usually based on safety.

All drugs on the list are covered. If you need a drug that is not on the list, or there isn't another drug on the list that you can take, you or your doctor can ask for an exception to the formulary. You can also ask us to not apply restrictions or limits on a drug. You can request an exception at the website, or by telephone through Member Services. Your doctor can send us a Request form via fax or call us at 1-833-230-2102, option "Provider," then option "Pharmacy".

We work with your doctor for the information we need for prior authorization or exception requests. Your doctor will tell us why the drug is necessary.

If we deny a drug request, we'll send a letter to you and your doctor. The letter will tell you the reason why we denied the request. You have the right to appeal. If you want to appeal, you have 60 days from the date on the letter to appeal.

Benefit limitations

Some drugs are covered by the state of Michigan, not HAP CareSource Medicaid. When you go to the pharmacy, you should always take your HAP CareSource card and your mihealth Medicaid card. Your pharmacy knows about these drugs and will bill the state for these drugs.

There are some drugs not covered by HAP CareSource or mihealth Medicaid, including:

- Drugs not approved by the Food and Drug Administration
- Drugs for cosmetic use
- Experimental or investigational drugs
- Cough/cold medications
- Fertility drugs
- Lifestyle drugs
- Sexual or erectile dysfunction drugs
- Replacement of lost or stolen medication
- Any drug excluded for coverage by the state of Michigan
