

SUMMER 2024

MEMBER *Source*

A Newsletter for HAP CareSource™ Members

Have Medicaid Coverage? **Read On!**

You may have heard a lot about Medicaid in the news lately. The government issued a Public Health Emergency (PHE) during the COVID-19 pandemic. You did not have to renew your Medicaid coverage under the PHE. Now that the PHE has ended, you will need to renew. **HAP CareSource cannot renew for you.** You need to renew through Michigan Department of Health and Human Services (MDHHS).

Learn about Medicaid renewal at Michigan.gov/MIBridges.

We love that you are a member of HAP CareSource! We do not want you to have a gap in your health coverage. Take action as soon it is your time to renew!

HAP CareSource™

Safe Travels!

Before you travel, make sure you have your prescribed medicines. Check your medicine supply early and ask for refills if needed. Keep your medicines in their original bottles with labels. If you are flying, pack them in your carry-on bag so you don't lose them. If you have questions, check with your doctor or pharmacist.

Interpreter Services

Servicios de Intérprete दुभाषया सेवाएँउ

We have free interpreter services to answer any questions you may have about our health or drug plan. To get an interpreter, just call us at **1-833-230-2053 (TTY: 711)**. Someone who speaks your language can help you.

Tenemos servicios de intérprete sin costo alguno para responder cualquier pregunta que pueda tener sobre nuestro plan de salud o medicamentos. Para hablar con un intérprete, por favor llame al **1-833-230-2053 (TTY: 711)**. Alguien que hable español le podrá ayudar.

हमारेस्वास्थ्य या दवा की योजना के बारेमें आपकेकसी भी प्रश्न केजवाब देनेकेलिए हमारेपास मुफ्त दुभाषया सेवाएँउपलब्ध हैं. एक दुभाषया प्राप्त करनेकेलिए, बस हमें **1-833-230-2053 (TTY: 711)** पर फोन करें. कोई व्यक्ति जो हनिदी बोलता हैआपकी मदद कर सकता है.

Water Safety Tips for the Summer

As the weather warms, cooling off at the beach, a lake, or pool can be great fun.

Follow some basic tips to stay safe.

Never swim alone.

Wear a life jacket any time you are on a boat.

Know your limits and only swim in safe areas.

Drink lots of fluids.

Always wear sunscreen. The water reflects the sun and makes it easier to burn. Learn more about protecting your skin from the sun on page 12.

According to the Red Cross, drowning is a leading cause of death in children. Take a water safety class or swim lessons. The Red Cross offers classes. Other local resources may offer lessons or classes as well.

Learn more at www.redcross.org/get-help/how-to-prepare-for-emergencies/types-of-emergencies/water-safety.html.

Caring for the *Caregiver*

If you are a caregiver for a loved one, it can be hard. It takes a lot of time, effort, and energy. Caring for yourself is one of the most important things you can do. You cannot give your best to someone else if you are not caring for yourself first.

Visit your provider to stay up-to-date on routine exams. Get your COVID-19 and flu shots to protect yourself and your loved ones. Try to get enough sleep and add plenty of fruits, veggies, and whole grains to your diet.

Do something for yourself that is not related to caregiving. Join a fitness class, read a book, or meet up with a friend for lunch.

You are not alone. Find others who are in similar situations. [Caregiver.org](https://www.caregiver.org) and [CareGiverAction.org](https://www.CareGiverAction.org) have free online support groups you can join.

Go Green!

Did you know you can choose to get email or text from us instead of some paper mail? We will send you a text or email when documents are ready for you to view in your My CareSource® account. Some things must be mailed to you, but when we can, we will follow your preference.

Use the steps below to update your preferences and go green!

1. Log in to your account at **MyCareSource.com**. If you don't have a My CareSource account, click **Sign Up** and follow the prompts. You will need your HAP CareSource member ID card.
2. Click **Preferences** on the top navigation bar. A screen to edit your contact preferences will appear.
3. Make sure your email and phone number are correct. If they are not, change them. Check the boxes for **Send me email** and/or **Send me text**. You can then pick the types of messages you would like to get electronically.

Click the **Update** button and you're all set!

Dental Care to Keep You Smiling

Routine dental visits are key for you and your child's overall health. You have dental benefits like exams, cleanings, x-rays, and more! We work with Delta Dental to manage your dental care.

Helpful tips to take care of your dental health:

- See your dentist two times a year. You should go even if you do not have tooth or gum pain.
- Your dentist will do an exam to make sure your mouth is healthy.
- Exams can help detect issues like cavities and gum disease.
- You will have your teeth cleaned during routine visits. This cleaning helps remove build-up that can be hard to get to with normal brushing and flossing.
- Brush teeth twice a day with fluoride toothpaste and floss daily.
- Limit sweet foods and drinks, like cake, candy, soda, and fruit drinks.

Need to find a dentist?

Use our Find a Doctor/Provider tool to find a dentist at **FindADoctor.CareSource.com**.

Children's Special Health Care Services

The Michigan Department of Health and Human Services (MDHHS) offers the Children's Special Health Care Services (CSHCS) program. CSHCS serves children and some adults with special health care needs at no extra cost.

To find out who is eligible and how to apply, visit www.michigan.gov/mdhhs/assistance-programs/cshcs/general-information-for-families-about-cshcs.

Having a Baby?

HAP CareSource has special program to help when you are pregnant. Please see your doctor soon after you know you are pregnant and call to let us know. We cover prenatal care like doctor visits, tests, and ultrasounds. If you are pregnant, you need to see the doctor often. We have a network of OB-GYNs, midwives, duala's, and other specialists. We want you to get the support you need.

HAP CareSource offers the Mom and Baby Beginnings program to help you during your pregnancy. Our team will help you get connected to resources that can help you with your pregnancy, food, housing, transportation, and safety. We will also work with your medical team to make sure you are healthy and safe during your pregnancy. Call **1-833-230-2034 (TTY: 711)** to learn more.

You may also be eligible to get a free breast pump and supplies! It can be ordered within 90 days of your due date. Visit:

- Aeroflowbreastpumps.com
1-844-867-9890
- Insured.amedadirect.com
1-877-791-0064
- Pumpsformom.com
1-888-411-7231

You and your baby may be able to earn rewards.
Learn more at [CareSource.com/mi/benefits-services/rewards/](https://www.caresource.com/mi/benefits-services/rewards/).
To see more resources, visit [CareSource.com/members/education/pregnancy/](https://www.caresource.com/members/education/pregnancy/).
You can also call us. The number is on the back of this newsletter.

Preventing Fraud, Waste, and Abuse

To prevent fraud, waste, abuse, or medical identity theft, we send an Explanation of Benefits (EOB).

This is not a bill.

If you get one, check these three items:

- 1 Are the services, supplies, or equipment listed, correct?
- 2 Were any items billed more than once?
- 3 Do the dates of service look correct?

If something doesn't look right, call Member Services. Follow the prompts to report fraud. You can also send us an email at fraud@caresource.com, fax to 1-800-418-0248, or write to us at:

HAP CareSource
Attn: Program Integrity
P.O. Box 1940
Dayton, OH 45401-1940

You do not have to give us your name when you write or call. Your report will be kept confidential as possible by law.

Physician Incentive **Disclosure**

- ✓ HAP CareSource does not pay financial incentives to practitioners or providers to withhold any health care or health care related services.
- ✓ HAP CareSource does not reward practitioners, providers, or other individuals for issuing denials of coverage.
- ✓ HAP CareSource does not make decisions about hiring, promoting or terminating practitioners, providers or, other staff based on the likelihood that the individual supports, or tends to support, the denial of benefits or services.
- ✓ HAP CareSource makes decisions on evidence-based criteria and benefits coverage.

Our Goal for Health Equity

Our goal is to make a lasting impact in our members' lives. Health equity plays a big part in that effort. Health equity is giving all people the same chance to be as healthy as they can be. It does not matter who they are or where they live.

How do we reach health equity?

These social and economic factors must be addressed to reach health equity:

Discrimination & Equity Issues

Access to Healthy Food

Steady Job with a Livable Wage

Neighborhood Safety

Clean Air & Water

Quality & Affordable Health Care

Quality of Schools

Stable & Safe Housing

Health Care Transition Timeline for Youth and Young Adults

Health Care Transition Program (HCT) helps youth with achieving independence to manage their health care needs on their own as they enter adulthood. This helps them move to an adult/patient-centered model.

Below is a timeline your child can use to prepare:

Age 12 to 13	<ul style="list-style-type: none">• Learn about your health, medications, and allergies.• Ask your primary care provider (PCP) questions about your health.
Age 14 to 15	<ul style="list-style-type: none">• Carry your own HAP CareSource member ID card• Learn more what to do in case of an emergency.• Begin to see your PCP alone for part of the visit.
Age 16 to 17	<ul style="list-style-type: none">• Schedule doctor's visits, see your PCP alone, ask your PCP any questions you have, and refill medications.• Ask your PCP about your rights when you turn 18.• Decide if you will need help making health care decisions at age 18.
Age 18 to 21	<ul style="list-style-type: none">• You are a legal adult at age 18 and are legally responsible for your care. Parents/caregivers cannot access your medical information or be in the PCP's visit unless you agree.• Work with your current PCP to find a new adult PCP, if needed. Make sure that the new doctor accepts HAP CareSource.• Call your new adult doctor to schedule the first visit.• Learn if there are changes in your health insurance, Social Security Income, or other programs when you turn 18.

3 Tips to Get and Stay Active

Starting a new workout routine doesn't have to be hard. Sticking to that routine can be tricky.

Here are three easy tips to get and stay active.

1

Start small.

Listen to your body. Give yourself grace to ramp up your activity over time.

2

Take more steps throughout the day.

Simply walking more can give you more energy. Park farther away when you go to the store. Choose the stairs instead of an elevator.

3

Focus on healthy foods.

As you get more active, your body needs more nutrients. Focus on filling yourself with fruits, veggies, and whole grains. Choose lean meats and protein from beans and legumes.

Protect Your Skin this Summer

Summer means warm weather and sunny days. Don't forget to protect your skin from the sun. The American Academy of Dermatology (AAD) says everyone needs sunscreen to help prevent skin cancer. Sunscreen that has broad-spectrum (UVA and UVB) protection is best. Look for options that are SPF 30 or higher and water resistant. There are ways to treat your skin if you do get a sunburn.

FOLLOW THESE TIPS:

- ✓ Take cool baths or showers to help with pain. Use an aloe vera or soy moisturizer.
- ✓ Drink plenty of water.
- ✓ If you get blisters, let them heal—do not pop them.
- ✓ Protect your sunburned skin while it heals. Wear clothes to cover your skin, stay in the shade and use sunscreen.

High Blood Pressure

Affects Half of Adult Men

Fifty percent of adult men in United States have high blood pressure, also known as hypertension. High blood pressure raises the risk of other serious health problems. Some of these are heart disease, stroke, and chronic kidney disease. Catching and treating it early can help stop these health issues before they start. Have your blood pressure checked often because you may not have any signs. You could have it and not know.

One way to track your blood pressure is by going to your primary care provider (PCP) for a yearly health exam. They will check it along with many other routine things to review your health. If your blood pressure is high, they can give you tips on how to lower it and may give you medicine to treat it. You may need to have it checked more often if you have any other health issues. You also may need to get it checked more often if you have a close family member that has high blood pressure.

**Your blood pressure will change during the day.
It depends on what you are doing.**

A normal blood pressure should be **lower than 120/80 mmHg.**

It is high when it stays above **130/80 mmHg or higher.**

Questions?

You can call our 24-Hour Nurse Advice Line. We are here to help you 24/7/365.
Call **1-833-687-7370 (833-NURSE-70)**.
