

Re: Medicaid Drug List Changes starting October 1, 2026

Dear HAP CareSource Member,

Your health care is our priority. On **October 1, 2026**, there will be changes to the covered drug list. This includes drugs on the formulary (also called a preferred drug list) and drugs you can get at the doctor's office.

THE FOLLOWING DRUGS HAVE A CHANGE IN STATUS STARTING OCTOBER 1, 2026

Drug Name	Notes
Q5134 Tyruko (natalizumab-sztn)	Prior Authorization Required

What should you do?

First, talk to your doctor. There may be other drugs that you can take instead. There are a few ways you and your doctor can find other drugs covered by your plan:

- Visit our website at **HAPCareSource.com**. On the **Members** page, go to **Tools & Resources** and click on **Find My Prescriptions**.
- Call Member Services at 1-833-230-2053 (TTY: 711). We are open 24 hours a day, seven days a week.

We are here to help you.

Sincerely,

HAP CareSource
