

**Re: Medicaid Drug List Changes starting January 1, 2026**

Dear HAP CareSource Member:

Your health care is our priority. On January 1, 2026, there will be changes to the covered drug list. This includes drugs on the formulary (also called a preferred drug list) and drugs you can get at the doctor's office.

**THE FOLLOWING DRUGS WILL BE NON-PREFERRED STARTING JANUARY 1, 2026**

Drug Name	Notes
Saxenda (liraglutide)	Moved to Non-Preferred for Anti-Obesity/Weight Loss Agents
Liraglutide (generic for Saxenda)	Moved to Non-Preferred for Anti-Obesity/Weight Loss Agents
Wegovy (semaglutide)	Moved to Non-Preferred for Anti-Obesity/Weight Loss Agents
Zepbound (tirzepatide)	Moved to Non-Preferred for Anti-Obesity/Weight Loss Agents

**What should you do?**

First, talk to your doctor. There may be other drugs that you can take instead. There are a few ways you and your doctor can find other drugs covered by your plan:

- You can look on our website at **HAPCareSource.com**. On the **Members** page, go to **Tools & Resources** and click on **Find My Prescriptions**.
- Call Member Services at **1-833-230-2053** (TTY: 711). We are open 24 hours a day, seven days a week.

We are here to help you.

Sincerely,

HAP CareSource
