

NETWORK *Notification*

Notice Date: February 27, 2025
To: Michigan Medicaid Providers
From: HAP CareSource™
Subject: 2025 Vaccine Initiative

Summary

HAP CareSource is excited to announce a new vaccine initiative launching in 2025: ***Vaccine BINGO!***

Impact

Vaccine rates continue to decline in the state of Michigan. We are taking an approach to educate and encourage parents to get their infants and young children vaccinated. The BINGO card includes the vaccines recommended by the American Academy of Pediatrics for children under the age of two years. We have chosen to include all members six years of age and under to be eligible and get a chance to play.

It is easy to play! Members can visit caresource.com/gotbingomi to share information and their BINGO! Our members will be notified by either text message or mailed fliers. The members with a confirmed BINGO will qualify for a quarterly drawing in 2025.

Three winners will be selected and win up to \$100 each! This is in addition to any member incentive that would be applicable.

Importance

Vaccine BINGO makes getting preventive health care more fun. Please share with your patients who have HAP CareSource.

Questions?

Additional details, frequently asked questions, vaccine education and a downloadable BINGO card can be found at [Let's Play BINGO!](https://caresource.com/gotbingomi) on **HAPCareSource.com**.
