From: HAP CareSource™
Subject: Social Determinants of Health (SDOH): Understanding Codes

Summary

Michigan Health Information Network (MiHIN) is Michigan's state-designated entity to improve health care quality, efficiency and patient safety by promoting secure, electronic exchange of health information.

Impact

MiHIN created a presentation to document their shared services and assist providers in the transition to use Logical Observation Identifiers Names and Codes (LOINC).

Importance

Providers can review this [presentation](#), located on the [HAP CareSource provider portal](#), to view the updated information, codes and guidelines.
