

NETWORK Notification

Notice Date: December 18, 2025
To: Michigan Medicaid Providers
From: HAP CareSource™
Subject: PIHP Points of Contact

Summary

Michigan Department of Health and Human Services (MDHHS) oversees the pre-paid inpatient health plans programs, which are designed to provide health services to Medicaid beneficiaries. The plans are contracted by MDHHS and work in conjunction with the health plans to deliver behavioral health services.

Prepaid Inpatient Health Plans (PIHP) are responsible for making sure people receive the behavioral health services and support they need and manage the network of behavioral health care providers including Community Mental Health Service Providers and behavioral health providers.

For all PIHPs in the HAP CareSource service area, this is a record of the PIHP designated point(s) of contact for mental health referrals. As requested by MDHHS, this will be shared with all the providers in our network.
