**Prior Authorization:** Some health care services require prior authorization from the Plan. Prior authorization is the process used by the Plan to determine those health care services listed on the Plan's prior authorization list that meet evidence-based criteria for medical necessity and are covered services under the Plan prior to the health care service being provided. The provider (in-network or out-of-network) is responsible for obtaining prior authorization for the health care services described on the prior authorization list. Please refer to Chapter 2 of the Evidence of Coverage at www.caresource.com/marketplace for complete details after you are enrolled.

This Schedule of Benefits is a summary of your financial responsibility when you receive health care services from a physician, pharmacy, facility or other provider. All covered services are subject to the conditions, exclusions, limitations, terms and rules of the Evidence of Coverage including any rider/enhancements or amendments. Except as otherwise provided in the Evidence of Coverage, covered services must be provided to you by a network provider and medically necessary. The Plan does not cover all health care service expenses. In the event of any discrepancy between this Schedule of Benefits and your Evidence of Coverage, the Evidence of Coverage shall control. For more detailed information about your covered services, please refer to the Evidence of Coverage at www.caresource.com/marketplace.

The copays and coinsurance listed in the 'You Pay' column would only apply if the item or service is not furnished directly by a provider meeting the criteria outlined below, otherwise there would be no cost to you.

1) an Indian Health Service, an Indian Tribe, Tribal Organization, or Urban Indian Organization (each as defined in 25 U.S.C. 1603);

2) a provider who was referred by one of the organizations listed in item 1.
