Person-Centered Care

Our innovative model of care is at the heart of our mission. As a **non-profit organization**, TrueCare is uniquely focused on circumstances far beyond the health care of our members.

Holistic Approach for the Member

With a people-first focus and a community-based approach, our priority is helping members live happier, healthier lives. We meet them where they are and help them find answers with information, resources, supportive services, innovative programs and meaningful guidance at every step along their journey. In addition to our traditional provider contracting, TrueCare contracts directly with behavioral health and Home and Community-Based Services (HCBS) providers to support a holistic approach to care.

Social Determinants of Health

We shape our benefits to integrate social and economic solutions seamlessly into our members' care to have maximum impact on their social support, stability, health and wellness. Life Services® is the umbrella framework through which TrueCare addresses social determinants of health including hunger, housing, social stability, workforce development and employment.

Within Life Services, our *JobConnect*™ program addresses the education and employment barriers that many of our members face and that impede their path to self-sufficiency. *JobConnect*™ is widely recognized within the managed care industry for reducing dependence on governmental services by providing members with life coaching, access to community-based resources, and support with setting and reaching their professional and educational goals.

Electronic Claims Payment

We partner with ECHO Health to provide electronic funds transfer (EFT) as a payment option. Providers who are registered for EFT benefit from:

Simplicity – Paper checks and Explanation of Payments (EOPs) will be eliminated for increased efficiency and payment processing.

Convenience – Electronic Remittance Advice (ERAs) are available 24/7.

Reliability – Claim payments are electronically deposited to your bank account.

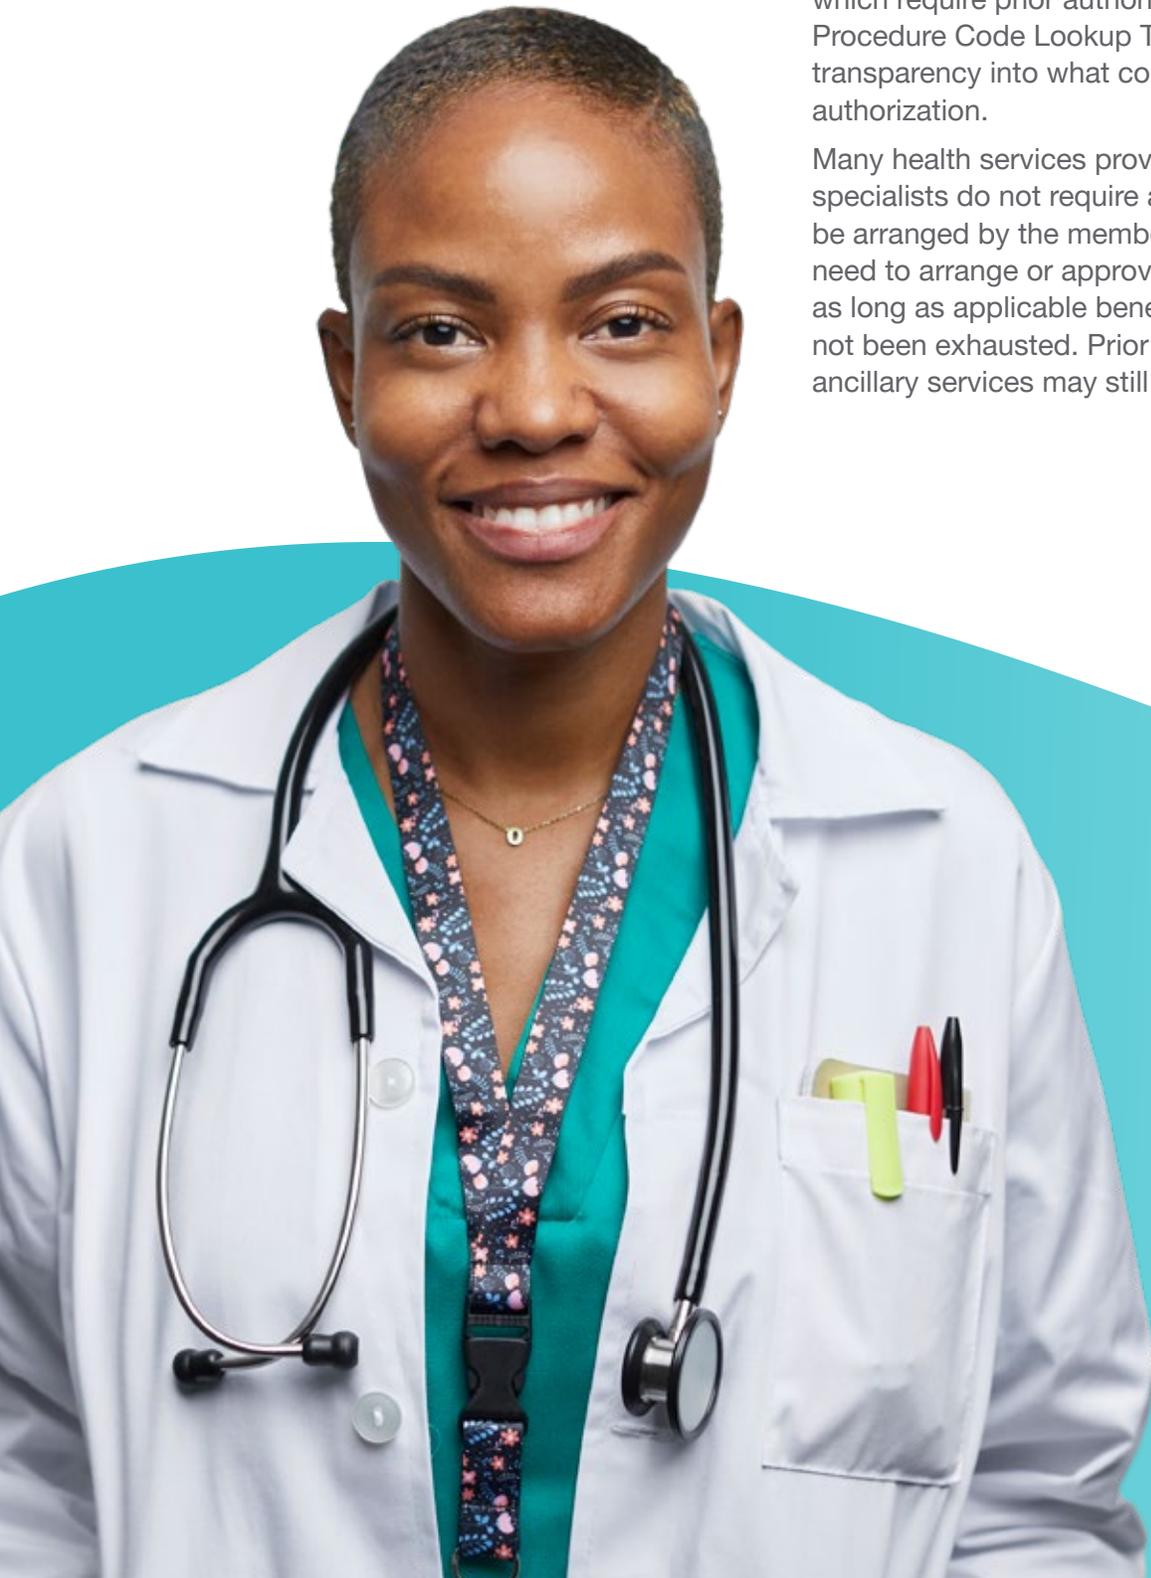

Security – Access your ECHO account through the secure TrueCare Provider Portal to view (and print if needed) remittances and transaction details.

Prior Authorizations & Referral

We keep our administrative processes simple for you and our members. We offer medically necessary services, some of which require prior authorization. Our online Procedure Code Lookup Tool provides transparency into what codes require prior authorization.

Many health services provided by specialists do not require a referral and can be arranged by the member. You will not need to arrange or approve these services as long as applicable benefit limits have not been exhausted. Prior authorization of ancillary services may still be required.
