

NETWORK Notification

Notice Date: July 2, 2025
To: North Carolina and West Virginia Marketplace Providers
From: CareSource
Subject: Enhance Patient Outcomes with CareSource's 2025 Quality Enhancer Program

Summary

CareSource is focused on closing the diabetes A1C care gap through effective monitoring of A1C levels. We're pleased to offer **additional payments** for submitting A1C CPT II codes with your claims!

Why It Matters:

Maintaining A1C results below **8%** is essential for optimal diabetes management and significantly reduces the risks of complications like heart disease and kidney damage. A 1% decrease in A1C can lower the risk of eye, kidney, and nerve damage by **40%**!

Reimbursement Details:

Participate in the Quality Enhancer by submitting claims with the following CPTII codes:

Measure	Qualifying Service CPT Codes	Enhancer Trigger Codes	Reimbursement
Glycemic Status Assessment for Patients with Diabetes (A1C with documented results)	83036, 83037	3044F, 3046F, 3051F, 3052F	\$15.00 (up to 4 times/calendar year)

Steps to Close the Care Gap & Earn Rewards:

1. Perform the recommended A1C test for CareSource members aged **18+** with diabetes (Type 1 or 2).
2. **Document** the **A1C results** in the member's medical record.
3. Submit **a claim** with the **correct diagnosis and procedure codes**, including the **CPTII code** for the A1C test result.

Additional Important Screenings and CPT/CPT II Codes:

- **Blood Pressure Control:** 3074F, 3075F, 3077F, 3078F, 3079F, 3080F
- **Kidney Health Evaluation:** eGFR (80047, 80048, 80050, 80053, or 80069) AND uACR (82565 or 82043 and 82570 where DOS must be within 4 days)
