Subject: Quality Enhancer Program – Changes to Payment Process

Background

We recognize the outstanding work you're doing to improve your patients' health and quality outcomes. The CareSource Quality Enhancer program continues to offer enhanced reimbursement for North Carolina and West Virginia Marketplace providers who submit Current Procedural Terminology Category II (CPT II) codes with A1C testing claims.

Summary

CareSource has streamlined its payment process. Enhanced reimbursement will now be included in the regular provider payment checks, **eliminating separate quarterly payments**.

The Quality Enhancer program is available to eligible CareSource providers who submit A1C claims with qualifying CPT II codes.

Key Points:

- **No Enrollment Required:** Simply submit claims with CPT II codes according to the established schedule to receive enhanced payments.
- **Eligibility:** Please note that laboratories are not eligible for enhanced payments, and adult CareSource members must be eligible on the date services are rendered.
