

VISION AND FITNESS BENEFITS

2026 Nevada

CareSource[®]

We got you.

CareSource understands that a person's health involves more than just the basic health benefits and protections that come from the Affordable Care Act (ACA). So, we include: no lifetime maximums for most benefits, no medical review for enrollment, and we cover an extensive list of prescription drugs. But that's just the beginning.

CareSource takes a holistic approach to health care by offering supplemental benefits that support your fitness goals, along with vision services that many other health insurance plans do not cover*.

Through our partnership with ^Teladoc®, CareSource Marketplace members have access to \$0 copay telehealth office visits. This means you can talk to a U.S.-licensed physician by phone or video 24/7 for short-term illnesses. The doctor can consult with you, diagnose your condition and even prescribe medications if needed.

Vision benefits are administered by EyeMed® and include:

Comprehensive eye exam with dilation, if medically necessary: One per benefit year, cost share applies.

Eyewear: Covered in full up to \$250 allowance per benefit year, limited to one pair of glasses or contacts per benefit year.

Eyeglasses, includes materials only: Frames, lenses and options: 20% discount on balance after \$250 allowance.

Contact lenses, includes materials only: Conventional — 15% discount balance after \$250 allowance; Disposable — No discount after \$250 allowance.

No member cost share for:

Low-vision: Supplemental testing and low-vision aids.

Retinal imaging: Limited to one per benefit year.

Medically-necessary contact lenses: Contact lenses and associated services, including fit and follow-ups, covered in full with no limitations on number of follow-up visits required.

As a CareSource member, you also get access to the following services:

Laser Vision Correction (LASIK from QualSight) — offers discounted prices for each LASIK procedure type. The discounts range from 15% to 50% compared to the usual and customary charges. The prices quoted to members are already discounted, so the above discount range does not apply again.

Not all providers honor discounts for non-covered services.

All premium lens options and lens add-ons above the allowance amount will be eligible for the 20% discount.
