

TIMELY ACCESS TO CARE: ACCESS & AVAILABILITY

ACCESS STANDARDS AND SURVEY QUESTIONS

NEVADA MEDICAID

PROVIDER EDUCATION SERIES

HOW IS THE AUDIT MEASURED?

Nevada Medicaid Access Standards¹

- Participating providers are expected to have procedures in place to see patients within the following time frames, and to offer office hours to their CareSource patients that are at least the equivalent of those offered to any other patient.
- A member's wait time at a provider's office should be no more than one hour from the scheduled appointment time, except when the provider is unavailable due to an emergency.
- Please keep in mind the following access standards for each level of care:

MAXIMUM APPOINTMENT WAIT TIME FROM THE DAY OF REQUEST				
SERVICE TYPE		URBAN	RURAL	FRONTIER
1 PCP & SPECIALIST APPOINTMENT AVAILABILITY	PRIMARY CARE PROVIDER (PCP)			
	Adult care visit	10 Calendar Days	15 Business Days	15 Business Days
	Pediatric care visits	10 Calendar Days	15 Business Days	15 Business Days
	Urgent care ²	Within 48 Hours		
	Emergency needs ²	Seen Immediately		
	NON-PRIMARY CARE (SPECIALISTS)

3 PCP & BH AFTER HOURS AVAILABILITY	PCP AND BH PROVIDER	
	Telephone access	24 Hours, 7 Days/Week
	The managed care organization must ensure that the PCP provides live-voice coverage after normal business hours. PCP and BH providers must provide 24-hour availability to their CareSource patients by telephone. Whether through an answering machine or a taped message used after hours, patients should be given the means to contact their PCP/BH* provider or a back-up provider to be triaged for care. It is not acceptable to use a phone message that does not provide access to you or your back-up provider and only recommends emergency department use for after hours.	
	*BH providers may refer their patients to the 988 Suicide & Crisis Hotline if a provider is not available for the call.	

¹Please refer to your Provider Manual or plan representative for the most up to date access standards.

²Providers should see members as expeditiously as the member's condition and severity of symptoms warrant. TIPS TO SUCCESS

Regular/Routine Care Appointments

Barrier/Question:	Tips to Improve:
The doctor in my practice has limited availability during the week (e.g., two days/week) or is unable to meet the time frames in the standards.	It is acceptable to schedule the patient with another provider in your practice to meet the standard requirement. If your practice has telehealth capabilities, inform the patient of this option as it is also acceptable for meeting the standard.
The doctor is no longer with my practice.	This is an example of the importance of having your information up to date to avoid unnecessary audit calls. The next slide in this training explains how to update your practice information. You may contact your Health Partner Representative if you need assistance.
Closure during the holidays causes delays in meeting time frames.	Standard time frames are required even during holidays. Consider partnering with another provider office to serve as a back-up for when your office closes.

Urgent Care Appointments

Barrier/Question:	Tips to Improve:
The practice is unable to meet the time frames in the standards.	Consider evaluating ways to build in more flexibility within your daily schedule to accommodate urgent care needs.
What is the definition of an urgent care visit?	An appointment for services that require prompt attention and necessary care for unexpected illness or injury.
We have walk-in hours. Will this pass the standard?	Yes, walk-in hours are acceptable for urgent care.
What should we do to meet the standard if we are closed on Fridays?	It is acceptable to meet the standard by seeing the patient on the same day, sending patient direct to urgent care center or offering the patient an alternate provider.

Emergency Care Appointments

Barrier/Question:	Tips to Improve:
My practice is unable to meet the time frames in the standards.	It is acceptable to advise the patient to go to an urgent care facility as this will meet the standard.
My office staff cannot advise how to treat an emergency.	Offering to triage the patient is considered a passing response. This would include asking the patient to stay on the line to be connected to an on-call provider.

After Hours Access

Barrier/Question:	Tips to Improve:
How did my practice fail the live person measures?	Ensure that your answering service is aware of the access and availability audit and has knowledge of current access standards.
Our office is small and not able to provide after-hours access to a provider.	It is acceptable to include a number to reach an on-call provider, but your practice doesn't have to be open for operation after office hours.
Our behavioral health office is unable to field phone calls outside business hours.	It is acceptable to advise patients to call the 988 Suicide & Crisis Hotline.
Why did I fail if my office has an auto-attendant in place and offers a way to reach the provider after hours as well as emergency directions?	It is possible that your recording was not working properly when the audit was conducted. Check your after-hours number to confirm it is working currently and correct the recording if there is an error.
