

Dear CareSource member:

Summer is almost over and school may look a lot different in the fall due to COVID-19. However, schools still require that all shots are up-to date before the first day of school.

With our Kids First Rewards program, your child can be rewarded for going to the doctor and getting his or her shots!

Teens and young adults need immunizations, too! Each year children, teens and young adults ages 4 to 21 should visit their doctor or Primary Care Provider (PCP) to have a yearly well visit. For members under the age of 21 years, this well visit is called a Healthchek exam.

Call your/your child's doctor to ask if it is time for these services:

<u>Age</u>	<u>Recommendations</u>
4-6	<ul style="list-style-type: none">▪ Yearly Healthchek exam (well visit)▪ Dental, vision, and hearing testing▪ Blood lead test if never tested▪ A review of your child's shot record to get any that his/her school needs your child to get▪ Yearly flu shot
7-10	<ul style="list-style-type: none">▪ Yearly Healthchek exam (well visit)▪ Dental, vision, and hearing testing▪ A review of your child's shot record to get any that his/her school needs your child to get▪ Yearly flu shot
11-17	<ul style="list-style-type: none">▪ Yearly Healthchek exam (well visit)▪ Dental, vision, and hearing screening▪ A review of your child's shot record to get any that his/her school needs your child to get, including Tdap, HPV(3) and meningitis vaccine▪ Young adult exam▪ Yearly flu shot
<u>Age</u> 8-21	<u>Recommendations</u> <ul style="list-style-type: none">▪ Yearly Healthchek exam (well visit)▪ Dental, vision, and hearing screening

- A review of your child's shot record to get any that his/her school needs your child to get, including meningitis vaccine if going to college
- Baseline cholesterol screen
