Notice Date: August 1, 2022
To: Ohio Medicaid Providers
From: CareSource
Subject: Next Generation of Ohio Medicaid Managed Care: Payer ID Change
Effective Date: December 1, 2022

Summary

In alignment with the Next Generation Managed Care Initiative, CareSource is required to change our Payer ID. The CareSource Payer ID is changing from 31114 to 0003150 for Ohio Medicaid providers only.

Impact

Providers must reflect the CareSource Payer ID change when submitting claims with a Date of Service on or after Dec. 1, 2022.

What happens to Payer ID 31114 after the transition to the new ODM Provider Network Management Portal (PNM) and new ODM Ohio Medicaid Enterprise Systems (OMES)?

- Payer ID 31114 will only be used for Ohio MyCare, Marketplace and MA/DSNP. Payer ID 31114 will no longer be active for Ohio Medicaid after the transition to the new Provider Network Management Portal (PNM) and new Ohio Medicaid Enterprise Systems (OMES)?

What will happen if a provider uses the existing Payer ID of 31114 when submitting a Medicaid claim after the transition to the new Provider Network Management Portal (PNM) and new Ohio Medicaid Enterprise Systems (OMES)?

- If the Medicaid claim is sent via paper or via the CareSource [Provider Portal](#), it will be denied. The CareSource Provider Portal will have a new page that will have membership check logic and will stop a Medicaid claim before it is processed.

What will happen if a provider uses the new Payer ID of 0003150 before the transition to the new Provider Network Management Portal (PNM) and new Ohio Medicaid Enterprise Systems (OMES)?

- Provider would receive invalid payer ID rejection
- CareSource will need to communicate the exact date of the transition Payer ID 31114 to Payer ID 0003150 so they can take appropriate actions within their system.
