Notice Date: June 24, 2022
To: Ohio Medicaid Providers
From: CareSource
Subject: OhioRISE Launch: What Providers Need to Know
Effective Date: July 1, 2022

Summary

As part of Ohio Department of Medicaid's (ODM) Next Generation of Medicaid Program implementation, ODM will also go live with OhioRISE (Resilience through Integrated Systems and Excellence), a specialized managed care program for youth with complex behavioral and multi-system needs. Aetna Better Health of Ohio is serving as the OhioRISE specialized managed care plan. CareSource will continue to provide physical health care coverage for OhioRISE members. We will support the OhioRISE program by taking an active role in collaborating and coordinating with Aetna Better Health of Ohio and other stakeholders identified as members of the youth's Child and Family Team on the integrated physical and behavioral health care of shared members.

Impact

The OhioRISE program will impact how CareSource providers submit behavioral health prior authorizations and claims. If your prior authorization request is for an OhioRISE member, please note that **BEHAVIORAL** health services that require prior authorizations will be managed through Aetna. For more information on behavioral health services that require prior authorization reference the [OhioRISE Provider Enrollment and Billing Guidance](#). If your **BEHAVIORAL** health claims submission is for an OhioRISE member please reference the [OhioRISE Mixed Services Protocol](#) to understand if you should submit to Aetna or CareSource. All **PHYSICAL** health service prior authorizations and claims will continue to be submitted to and managed by CareSource. Please engage Aetna (contact information is listed below) on how to properly submit a behavioral health service prior authorization or claim to Aetna.

Importance

OhioRISE will bring together local providers, health plans, schools, and other community entities under one coordinated approach to improve care for enrolled youth. CareSource is committed to working with our providers, Aetna Better Health of Ohio, and the state to promote a successful implementation and operations of this program.
