

NETWORK *Notification*

Notice Date: April 12, 2022
To: Ohio Medicaid and Marketplace OB/GYN Providers
From: CareSource
Subject: VaxCare LARC Management Platform

Summary

VaxCare provides LARC (long-acting reversible contraception) inventory for practices on consignment, automates ordering and management and **bills the patient's insurance** (medical benefit) on the back end.

Importance

The VaxCare system removes the financial risk of stocking implants and IUDs which ensures that in-office contraceptive inventory is available during the visit.

Benefits of using this technology platform include:

- **Implants & IUDs always on-hand:** VaxCare ensures same-day access to implants and IUDs.
- **Removes financial risk:** VaxCare provides implants and IUDs at no cost to the practice, removing the financial burden and risk of stocking implants and IUDs.
- **More contraceptive options:** VaxCare allows practices to better serve the needs of patients by facilitating convenient and timely access to a wide range of contraceptive options.

VaxCare distributed over 2M vaccines across the US in 2021.
