## Summary

Providers may request private duty nursing services and home health services for greater than a 60-day period.

## Impact

Providers may request private duty nursing services and home health services for greater than 60-day period for members with chronic conditions as CareSource does not apply a hard limit of 60 calendar days to private duty nursing and home health authorization periods.

CareSource authorizes services in a manner that maximizes the effectiveness of the care provided in accordance with Ohio Administrative Code (OAC) rule 5160-26-03.1. CareSource takes into consideration the member's specific health needs (e.g., whether the member is covered under Healthчек and whether the member's health condition is stable, chronic, and/or debilitating) when determining the length of time for which to authorize services.
