B. Background Information about CareSource MyCare Ohio's Network Providers

B1. Key terms

CareSource MyCare Ohio wants you to get the care you need. We make sure you have an Integrated Care Team so that all parts of your care are coordinated. This team is led by a Care Coordinator who makes sure your medical doctors, behavioral health providers, Long-Term Services and Support (LTSS) teams all work together. The team keeps you at the center of all care decisions. The Integrated Care Team participates in activities like health assessments, developing your care plan, putting the plan into practice, and making changes to the care plan as needed. The Care Coordinator directs and supports these activities to help you meet your health goals.

This section explains key terms in our Directory.

- **Providers** are professionals such as doctors, nurses, pharmacists, therapists, and other people who provide care and services. **Services** include medical care, Long-term Services and Supports (LTSS), Nursing Facility, Home and Community Based Services, Assisted Living, Memory Care, supplies, drugs, equipment, transportation, dental, vision, behavioral health and other services.
    - The term **providers** includes facilities such as hospitals, clinics, and other places that provide medical services and medical equipment. It also includes LTSS providers that you may use as a CareSource MyCare Ohio member.
    - Providers that are a part of our plan's network are called **network providers**.
- **Network providers** have contracted with us to deliver services to members of our plan. Network providers participate in our plan. That means they accept members of our plan and provide services our plan covers. When you use a network provider, you usually pay nothing for covered services.
- A **Primary Care Provider (PCP)** is an individual physician, physician group, Advance Practice Nurse (APRN), Women's Health specialist trained in family medicine (general practice) or Internal Medicine who gives you routine health care. Your PCP will keep your medical records and get to know your health needs over time.
- **Specialists** are doctors who provide health care services for a specific disease or part of the body. There are many kinds of specialists. Here are a few examples:
    - Oncologists care for patients with cancer.
    - Cardiologists care for patients with heart conditions.

- Orthopedists care for patients with certain bone, joint, or muscle conditions.

- You'll also be assigned a Care Coordinator. Your Care Coordinator helps you manage all your providers and services. They work with your care team to make sure you get the care you need.

- Everyone on the care team works together to make sure your care is coordinated. This means that they make sure that you get all of the tests, labs, and other care that you need, and the results are shared with the appropriate providers. It also means that your PCP should know all medicines you take so that they can reduce any negative effects. Your PCP will always get your permission before sharing your medical information with other providers. Members of your care team may include:

  - A **Care Coordinator** that helps you manage your medical providers and services. Your Care Coordinator helps you manage all your providers and services. They work with your care team to make sure you get the care you need.

  - Your **Primary Care Provider.**

B2. Wait times for primary care and behavioral health

- We must provide you with access to primary care and behavioral health services within the following timeframes: immediately for urgently needed services or an emergency;

- within 7 days for services that aren't an emergency or urgently needed, but you require medical attention; or

- within 30 days for routine and preventative care.

B3. How to choose a Primary Care Provider (PCP)

First, you will need to choose a primary care provider (PCP). You may be able to have a specialist act as your PCP. You can choose any PCP in our network who is accepting new members.

- To choose a PCP, refer to the list of providers in **Section C** and choose a provider.

  - that you use now, **or**

  - who has been recommended by someone you trust, **or**

  - whose offices are easy for you to get to.

- If you don't choose a PCP in our network, CareSource MyCare Ohio will choose one for you.

- If you want help in choosing a PCP, please call Member Services at **1-855-475-3163** (TYY: **1-833-711-4711 or 711**), 8 a.m. to 8 p.m., Monday through Friday and from October 1 through March 31 we are open the same hours, seven days a week.. The call is free. Or, visit **CareSource.com/MyCare-SNP**.

- If you have questions about whether any service or care that you want or need is covered, talk to your Care Team or call Member Services at the numbers listed at the bottom of this page and ask **before** you get the service or care.

B4. Long-term Services and Supports (LTSS) providers

As a CareSource MyCare Ohio member, you'll be able to get LTSS if you need them, such as personal care services (e.g., bathing, grooming, meal preparation), nursing services (e.g., medications, tube feeding, wound care, education, nutrition), home modifications (changes to the home to allow independence and increased safety), adult day health services (supervision, companionship, interaction) and more. LTSS help people who need assistance to do everyday tasks like taking a bath, getting dressed, making food, and taking medicine. Most of these services are provided at your home or in your community but could be provided in a nursing home or hospital.

If you need LTSS your Care Coordinator can help you and your Care Team determine what options are available to support you in the way you want.

B5. How to access CareSource MyCare Ohio's network providers

You must get all of your covered services from providers within our network. If you use providers who aren't in CareSource MyCare Ohio's network **(without prior authorization), you may have to pay the bill.**

> A **prior authorization** is an approval from CareSource MyCare Ohio to seek services outside of our network or to get services not routinely covered by our network **before** you get the services.

The only exceptions to this rule are when you need urgent or emergency care or dialysis and can't get to a provider in the plan, such as when you're away from home. Also, for a specific period of time after your enrollment with CareSource MyCare Ohio, you can use your out-of-network physicians and other service providers, including home health nurses, aides and LTSS or "waiver services" providers. You can also go outside the for other non-emergency services if CareSource MyCare Ohio gives you permission first.

- You may change providers within the network at any time during the year. If you've been using one network provider, you don't have to keep using that same provider.

- CareSource MyCare Ohio works with all the providers in our network to accommodate the needs of people with disabilities. As applicable, the list of network providers in this Directory includes information about the accommodations they provide.
- If you need a provider and aren't sure if they offer the accommodations you need, CareSource MyCare Ohio can help you. Talk to your Care Coordinator for assistance.

C. CareSource MyCare Ohio's List of Network Providers

This part of the Directory includes a list of CareSource MyCare Ohio's network providers who participate in and accept CareSource MyCare Ohio. It contains:

- **Health care professionals** including primary care providers, specialists, behavioral health providers, dental service providers, and vision service providers]
- **Facilities** including hospitals, nursing facilities, and behavioral health facilities; and
- **Support providers** including Long-term Services and Supports (LTSS) (for example, adult day health) and community support services (for example, peer supports).

> **Cultural competence training** is additional instruction for our health care providers that helps them better understand your background, values, and beliefs to adapt services to meet your social, cultural, and language needs.

Providers are listed in alphabetical order by last name. You can also find the provider's name and the page where the provider's additional contact information is in the Index at the end of the Directory. Providers are listed in alphabetical order by last name in the Index. In addition to contact information, provider listings also include specialties and skills, such as languages spoken (including American Sign Language (ASL)) or completion of cultural competence training.
