99354	Prolonged E&M or Psychotherapy Service First hour in addition to code for office or other outpatient E&M or psychotherapy service	Y		1 Encounter per day	N	

Code	Description	Covered Y/N	Limits	Unit of Measure	PA	Additional Information
99355	Prolonged E&M or Psychotherapy Service Each additional 30 minutes in addition to code for office or other outpatient E&M or psychotherapy service	Y		1 Encounter per day	N	
90791	Psychiatric Diagnostic Evaluation Includes the assessment of the patient's psychosocial history, current mental status, review, and ordering of diagnostic studies followed by appropriate treatment recommendations	Y		1 Encounter per day	N	
90792	Psychiatric Diagnostic Evaluation w/ Medical Services Includes the assessment of the patient's psychosocial history, current mental status, review, and ordering of diagnostic studies followed by appropriate treatment recommendations. Additional medical services such as physical examination and prescription of pharmaceuticals are provided in addition to the diagnostic evaluation. Interviews and communication with family members or other sources are included in these codes.	Y		1 Encounter per day	N	
90833	Individual Psychotherapy 30 minutes when performed w/ E&M (List separately in addition to code for primary service)	Y			N	
90836	Individual Psychotherapy 45 minutes when performed w/ E&M (List separately in addition to code for primary service)	Y			N	
90838	Individual Psychotherapy 60 minutes when performed w/ E&M (List separately in addition to code for primary service)	Y			N	
90785	Interactive Complexity Use 90785 in conjunction with codes for diagnostic psychiatric evaluation [90791, 90792], psychotherapy [90832, 90834, 90837], psychotherapy when performed with an evaluation and management service [90833, 90836, 90838, 99201-99255, 99304-99337, 99341-99350], and group psychotherapy [90853]	Y			N	
TRADITIONAL SERVICES						
90832	Individual Psychotherapy 30 minutes with Patient Psychotherapy is a variety of treatment techniques in which a physician or other qualified health care provider helps a patient with a mental illness or behavioral disturbance identify and alleviate any emotional disruptions, maladaptive behavioral patterns, and contributing/exacerbating factors. This treatment also involves encouraging personality growth and development through coping techniques and problem-solving skills	Y			N	
90834	Individual Psychotherapy 45 minutes with Patient Psychotherapy is a variety of treatment techniques in which a physician or other qualified health care provider helps a patient with a mental illness or behavioral disturbance identify and alleviate any emotional disruptions, maladaptive behavioral patterns, and contributing/exacerbating factors. This treatment also involves encouraging personality growth and development through coping techniques and problem-solving skills	Y			N	

Code	Description	Covered Y/N	Limits	Unit of Measure	PA	Additional Information
90837	Individual Psychotherapy 60 plus minutes with Patient Psychotherapy is a variety of treatment techniques in which a physician or other qualified health care provider helps a patient with a mental illness or behavioral disturbance identify and alleviate any emotional disruptions, maladaptive behavioral patterns, and contributing/exacerbating factors. This treatment also involves encouraging personality growth and development through coping techniques and problem-solving skills	Y			N	
90846	Family Psychotherapy (without the patient present), 50 minutes family psychotherapy in a setting where the care provider meets with the patient's family without the patient present. The family is part of the patient evaluation and treatment process. Family dynamics as they relate to the patient's mental status and behavior are a main focus of the sessions. Attention is also given to the impact the patient's condition has on the family, with therapy aimed at improving the interaction between the patient and family members.	Y			N	
90847	Family psychotherapy (conjoint psychotherapy) (with patient present), 50 minutes Family psychotherapy in a setting where the care provider meets with the patient and the patient's family jointly. The family is part of the patient evaluation and treatment process. Family dynamics as they relate to the patient's mental status and behavior are a main focus of the sessions. Attention is also given to the impact the patient's condition has on the family, with therapy aimed at improving the interaction between the patient and family members. Reviewing records, communicating with other providers, observing and interpreting patterns of behavior and communication between the patient and family members, and decision making regarding treatment, including medication management or any physical exam related to the medication, is included.	Y			N	
90849	Multiple-family group psychotherapy The therapist provides multiple family group psychotherapy by meeting with several patients' families together. This is usually done in cases involving similar issues and often in settings of group homes, drug treatment facilities, or hospital rehabilitation centers. The session may focus on the issues of the patient's hospitalization or substance abuse problems. Attention is also given to the impact the patient's condition has on the family. This code is reported once for each family group present.	Y			N	
90853	Group psychotherapy (other than of a multiple-family group) The psychiatric treatment provider conducts psychotherapy for a group of several patients in one session. Group dynamics are explored. Emotional and rational cognitive interactions between individual persons in the group are facilitated and observed. Personal dynamics of any individual patient may be discussed within the group setting. Processes that help patients move toward emotional healing and modification of thought and behavior are used, such as facilitating improved interpersonal exchanges, group support, and reminiscing. The group may be composed of patients with separate and distinct maladaptive disorders or persons sharing some facet of a disorder. This code should be used for group psychotherapy with other patients, and not members of the patients' families.	Y			N	

CRISIS SERVICES

Code	Description	Covered Y/N	Limits	Unit of Measure	PA	Additional Information
90839	Psychotherapy for crisis; first 60 minutes Psychotherapy is a variety of treatment techniques in which a physician or other qualified health care provider helps a patient with a mental illness or behavioral disturbance identify and alleviate any emotional disruptions, maladaptive behavioral patterns, and contributing/exacerbating factors.
