

Network Notification

Date: May 16, 2011

Number: OH-P-2011-20a

To: Ohio Providers

From: CareSource

Subject: New Prior Authorization Changes to Select Specialty Medications and Pain Management Procedures

Please note: New date for specialty pharmacy is June 15

Effective Date: Specialty Pharmacy – June 15, 2011

Effective Date: Pain Management Procedures – July 1, 2011

Specialty Pharmacy PA Changes – Effective June 15:

Effective June 15, 2011, CareSource will require prior authorization on approximately 10 classes of [specialty medications](#). This prior authorization does not affect Emergency Room, inpatient and observation settings.

CareSource uses evidence-based guidelines to ensure health care services or medications meet the standards of excellent medical practice. In addition, these new policies have gone through an independent, external review process.

Ohio Providers: The medical benefit for specialty drugs requiring PA will begin June 15, 2011.

What Medications Will Require PA?

The following [list of medications](#) will require specialty pharmacy authorization.

How to Submit PA for Specialty Pharmacy?

Phone: Specialty Pharmacy – 1-800-488-0134

Fax: Specialty Pharmacy – 1-888-399-0271

- Please complete the [Prior Authorization](#) form
- Please attach supporting documentation along with your request

- J-Codes and/or NDC # **must be submitted** with all requests
- Each policy will be posted on our [Medical Policies](#) section starting in May and details the clinical criteria that must be met in order to be authorized
- Retrospective reviews will be accepted for 180 days from date of service

How will Providers Know if the Request Was Approved?

CareSource will notify providers if the request was approved or denied by fax within 5 business days of the request if the drug is to be billed under the medical benefit; and within 24 hours if the drug is to be billed through the pharmacy benefit.

Pain Management Procedures PA Changes – Effective July 1:

Effective July 1, 2011, CareSource is implementing a policy change that will now require prior authorization for some interventional pain management procedures. Also included in this policy is a change in authorization for associated anesthesia services.

Procedures and CPT Codes Affected by this Policy Change:

- **Soft Tissue and Trigger Point Injections:** Maximum of 8 injections in a 12 month period by the same or multiple providers. **CPT Codes:** 20550, 20551, 20552, 20553
- **Facet Joint and/or Facet Joint Nerve Injection:** Greater than 6 injections in a 12 month period by the same or multiple providers require prior authorization. **CPT Codes:** 64479, 64480, 64483, 64484, 64490, 64491, 64492, 64493, 64494, 64495
- **Epidural Steroid Injection and Selective Transforaminal Epidural Injection:** Greater than 3 injections in a 12 month period by same or any provider require prior authorization. **CPT Codes:** 62310, 62311.
- **Sacroiliac Joint Injection:** Greater than 6 injections in a 12 month period require prior authorization. **CPT Codes:** 27096
- **Monitored Anesthesia:** Monitored anesthesia will not be authorized for any interventional pain management procedures listed above. Conscious sedation, if preferred, does not require prior authorization, but services will be considered part of the procedure and are not eligible for additional reimbursement. **CPT Codes:** 01991, 01992, 01935, 01936
