

## ***Network Notification***

---

**Date:** April 29, 2015

**To:** Ohio Health Partners

**From:** CareSource®

**Subject:** "Road to 10" resource for ICD-10 implementation

---

Major changes are just months away for the health care industry as health partners make preparations for implementing the International Classification of Diseases, Tenth Revision, also known as ICD-10. CareSource wants you, our health partners, to have the information you need to get your practices ready to begin using the new codes.

To that end, the Centers for Medicare and Medicaid Services (CMS) has developed a special web page, [Road to 10](#). You may find the resources offered to be helpful as you and your team members get ready for ICD-10's start on October 1, 2015.

Additional resources can be found on the [Ohio ICD-10 Resource Center page](#). If you have questions, call your Health Partner Representative or call **1-800-488-0134**.
