

## **Network Notification**

**Notice Date:** February 15, 2019  
**To:** Ohio Health Partners  
**From:** CareSource®  
**Subject:** Behavioral Health Claim Issue Identified - UPDATE

---

Note: This notification is an update from the [Behavioral Health Claim Issue Identified](#) notification posted on Dec. 18, 2018.

We have identified a claim denial issue, and have a recommended approach to ensure that claims will process as appropriate.

When using CPT codes such as H2019, H2009 and H0036, please augment the code with a secondary modifier. This approach may be applicable to other codes as well when billing the same code, on the same day, by the same provider.

Note: Typically, modifiers 59 - Distinct Procedural Service; or 76 - Repeat Procedure by Same Physician, can be used to clearly establish the correct billing scenario.

If you have questions, please contact Provider Services at **1-800-488-0134**.
