

PHARMACY POLICY STATEMENT

Arkansas PASSE

DRUG NAME	Xyrem (sodium oxybate) and Xywav (calcium, magnesium, potassium, and sodium oxybates)
BILLING CODE	Must use valid NDC
BENEFIT TYPE	Pharmacy
SITE OF SERVICE ALLOWED	Home
COVERAGE REQUIREMENTS	Prior Authorization Required (Non-Preferred Products) QUANTITY LIMIT— 540mL per 30 days
LIST OF DIAGNOSES CONSIDERED NOT MEDICALLY NECESSARY	Click Here

Xyrem (sodium oxybate) and Xywav (calcium, magnesium, potassium, and sodium oxybates) will only be considered for coverage under the **pharmacy** benefit when the following criteria are met:

Members must be clinically diagnosed with one of the following disease states and meet their individual criteria as stated.

NARCOLEPSY WITH EXCESSIVE DAYTIME SLEEPINESS (EDS)

For **initial** authorization:

1. Member is 7 years old or older; AND
2. Member has a diagnosis of narcolepsy with EDS confirmed by sleep studies: polysomnogram and MSLT (multiple sleep latency test); AND
3. Member's current score on the Epworth Sleepiness Scale (ESS) is documented in chart notes; AND
4. a) Age 18 years or older: Member has had a compliant trial and failure for each of the following at maximally tolerated doses: modafinil OR armodafinil, AND Sunosi; AND Wakix, unless not tolerated or contraindicated; OR
b) Less than 18 years of age: Member has had a compliant trial and failure for at least **two** stimulant medications (such as methylphenidate, amphetamine), OR **one** stimulant medication AND modafinil, unless not tolerated or contraindicated; AND
5. Member is not using any alcohol or sedative hypnotic agents (such as zolpidem).
6. **Dosage allowed**: 9g per day (4.5g per dose).

If member meets all the requirements listed above, the medication will be approved for 6 months.

For **reauthorization**:

1. Chart notes must show the member has an improved score on the Epworth Sleepiness Scale and/or improved signs and symptoms of daytime sleepiness; AND
2. Member must continue to abstain from alcohol and any sedative hypnotic agents; AND
3. Member tolerates therapy and does not experience unmanageable or severe adverse effects; AND
4. Chart notes must not reveal any evidence or concerns of abuse, misuse, or diversion.

If member meets all the reauthorization requirements above, the medication will be approved for an additional 12 months.

NARCOLEPSY WITH CATAPLEXY

For **initial** authorization:

1. Member is 7 years old or older; AND
2. Member has a diagnosis of narcolepsy with EDS confirmed by sleep studies: polysomnogram and MSLT (multiple sleep latency test); AND
3. Member's current score on the Epworth Sleepiness Scale (ESS) is documented in chart notes; AND
4. Member must have, unless specifically contraindicated, a compliant trial and failure of at least **one** of the following cataplexy treatments for no less than 30 days: A tricyclic antidepressant (such as clomipramine), selective serotonin reuptake inhibitor (such as fluoxetine), or serotonin-norepinephrine reuptake inhibitor (such as venlafaxine); AND
5. Members 18 years of age and older must have a trial and failure of Wakix for at least 60 days; AND
6. Member is not using any alcohol or sedative hypnotic agents (such as zolpidem).
7. **Dosage allowed:** 9g per day (4.5g per dose).

If member meets all the requirements listed above, the medication will be approved for 6 months.

For **reauthorization**:

1. Chart notes must show decreased frequency and/or severity of cataplexy attacks; AND
2. Member must continue to abstain from alcohol and any sedative hypnotic agents; AND
3. Member tolerates therapy and does not experience unmanageable or severe adverse effects; AND
4. Chart notes must not reveal any evidence of abuse, misuse, or diversion.

If member meets all the reauthorization requirements above, the medication will be approved for an additional 12 months.

CareSource considers Xyrem (sodium oxybate) and Xywav (calcium, magnesium, potassium, and sodium oxybates) not medically necessary for the treatment of diseases that are not listed in this document.

DATE	ACTION/DESCRIPTION
5/26/2020	New policy for Xyrem created.
01/28/2021	Xywav added to policy. For cataplexy section: reduced trial of antidepressants from 2 to 1; added step through Wakix for adults.
12/22/2021	Removed prescriber specialty requirement and trial timeframes. Aligned sleep study and ESS requirement for both diagnoses.
